

TOTAL TRANSPORT SYSTEMS LIMITED

Archival Policy

(Pursuant to Regulation 30(8) of SEBI (Listing Obligations and Disclosure Requirements), Regulations 2015)

1. PREAMBLE:

In terms of Regulations 30(8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the 'Regulations'), a listed entity is required to host on the website maintained by the entity, all the material events / information as disclosed to the stock exchange(s) for a period of five years and thereafter in terms of the archival policy of such entity as disclosed on the website.

Data archiving is the process of moving data that is no longer actively used, to a separate storage device for long-term retention. Archive data consists of older data that is still important to the organization and may be needed for future reference, as well as data that must be retained for regulatory compliance. Data archives are indexed and have search capabilities so files and parts of files can be easily located and retrieved.

Total Transport Systems Limited (the "Company") has formulated this Archival Policy (the 'Policy') for ensuring compliance with the provisions under Regulation 30(8) of the Regulations for protection, maintenance and archival of the Events or Information disclosed to the stock exchange(s) which are also hosted on its website. Additionally, the Policy also include such other Events or Information which is required to be hosted on the website of the Company in terms of other Applicable Laws as may be decided by the Board from time to time.

2. OBJECTIVE:

This Policy emphasizes on the importance of preservation of the records and disclosures hosted on the website of the Company for making information accessible to the general public for taking well-informed decisions.

A data archiving helps organizations intelligently move (and purge) historical and inactive data from production databases into a more cost-effective location while still providing the capabilities to query, search or even restore data if needed.

Data archiving can also alleviate data growth issues by:

- Reducing the infrastructure and operational costs typically associated with data growth.
- To ensure back-up and allow for continuity in the event of a disaster.
- Streamlined risk and compliance management by helping organization to comply with data retention and purge policies while providing query able archives for audit.
- Corporate information management and preparedness.
