Annual Report F.Y. 2021-2022

Dear valued stakeholders,

The past year also witnessed headwinds from the continued pandemic, albeit not as bad as FY21. The initial months were hit by the second wave, wherein lockdowns across the country and globally impacted the logistics sector. Subsequently, the markets opened up and the third wave was luckily not as severe as the previous one.

The industry has been recovering well over the recent months, with demand and consumer sentiment improving in India and overseas markets, especially for essential goods and supplies.

However, TTSL has proved its mettle as a resilient Company, and continued on its growth trajectory during the year. In FY22, we reported a 85.2% Y-o-Y growth in revenue, at Rs. 583.2 cr. while the EBITDA and net profit grew 448.2% and 901.1% Y-o-Y to Rs. 16.4 cr and Rs. 9.1 cr, respectively. Though growth was primarily due to the low base effect of previous year that was adversely impacted by COVID-related lockdown, the increase in freight rates and volumes helped boost our revenue as well as the profit margins.

The year has been very eventful for our Company in the last mile delivery business. We were recently awarded 60 new stations by Flipkart as their outsourced delivery hub (ODH). Our total stations for Flipkart now are 80 hubs, serving more than 380 pin codes across 11 states in India. Total shipments that we have handled for Flipkart are now approaching 1.5 crore. This reflects our growing recognition as the preferred partner for logistics services by industry leaders.

In the post-COVID scenario, several businesses have moved from offline to online. Our last mile delivery business carried through One World Logistics Pvt Ltd capitalizes on this new trend. Our robust business model along with its latest ERP and SaaS for technology back up gives an added advantage.

We continue to focus on Abhilaya, our last mile delivery service, to expand that line of business and develop a segment that can cater to the rapidly increasing e-commerce and online business activities. This should give us a competitive edge over other logistics service providers.

As per industry estimates, the Indian Logistics market is forecast to grow to \$380 bn by 2025, from \$250 bn in FY21, at a CAGR of 10-12%, with the aid of digitization. We are well positioned to take on the opportunities lying ahead.

Looking ahead, our overall focus is on profitable and sustainable growth and increasing ROCE across businesses, leading to maximisation of shareholders' returns. I would like to take this opportunity to thank all our stakeholders who have supported and guided us throughout the years. We wish everyone good health and prosperity in the year to come.

1. IMPACT OF COVID – 19 ON BUSINESS:

The coronavirus pandemic ("Covid-19") outbreak last year had a large impact on the Country's economy as well as businesses across the spectrum. The logistics sector with an estimated size of \$215 billion also suffered the brunt of these unprecedented circumstances. However, with the progression of the lockdown easing, people and businesses across the Nation began adjusting to the new normal and the economy started its path back towards recovery with logistics being a driving force across. We at Total believe that in every adversity lies the seed of an equal or greater opportunity. A complete lockdown followed by partial unlock has hampered our business. But we have used this slowdown as a chance to step back and introspect to frame new policies and guidelines to carve a path for a bright future ahead.

The COVID-19 virus forced the entire world to make a quick shift from offline to online. The last mile delivery business carried through our subsidiary, One World Logistics Private Limited is Total's answer to this global need. Our robust business model along with its latest ERP and SaaS for technology back up gives an added advantage. It operates under the brand "Abhilaya" with a focus on last mile delivery especially for Amazon, Flipkart and Fedex with a target to work with other ecommerce players at PAN India level.

SECRETARIAL AUDIT REPORT

For The Financial Year Ended 31st March, 2022

[Pursuant to section 204(1) of the Companies Act, 2013 and rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To

The Members,

Total Transport Systems Limited,

7th floor T-Square Opp Chandivali Petrol Pump,

Sakinaka Andheri (East) Mumbai 400072

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices **Total Transport Systems Limited** (hereinafter called '**the Company**'). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/ statutory compliances and expressing our opinion thereon.

Auditor's Responsibility:

Our responsibility is to express an opinion on the compliance of the applicable laws and maintenance of records based on audit. We have conducted the audit in accordance with the applicable Auditing Standards issued by The Institute of Company Secretaries of India. The Auditing Standards requires that the Auditor shall comply with statutory and regulatory requirements and plan and perform the audit to obtain reasonable assurance about compliance with applicable laws and maintenance of records.

Due to the inherent limitations of audit including internal, financial and operating controls, there is an unavoidable risk that some material misstatements or material non-compliances may not be detected, even though the audit is properly planned and performed in accordance with the Standards.

Modified Opinion:

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2022 (hereinafter called the '**Audit Period**') complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2022 according to the provisions of:

- (i) The Companies Act, 2013 (**the Act**), and the rules made there under;

- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Overseas Direct Investment (**External Commercial Borrowings and Foreign Direct Investment was not applicable to the Company during the Audit Period**).
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'): -
 - a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015; ('PIT Regulations')
 - c. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018; (**Not Applicable to the Company during the Audit Period**)
 - d. The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 and Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021; (**Not Applicable to the Company during the Audit Period**)
 - e. The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021 (**Not Applicable to the Company during the Audit Period**)

- f. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
- g. The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 and The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021; **(Not Applicable to the Company during the Audit Period);**
- h. The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018; **(Not Applicable to the Company during the Audit Period)**

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
- (ii) The Securities and Exchange Board of India (Listing Obligations and Disclosure requirements) Regulations, 2015; (hereinafter referred to as "Listing Regulations")

We further report that, having regard to the compliance system prevailing in the Company and on the examination of the relevant documents and records in pursuance thereof, on test-check basis, the Company has complied with the law applicable specifically to the Company i.e.:-

- a. Handling of Cargo in Custom Areas Regulations, 2009; and

Annual Report F.Y. 2021-2022

ROLE OF INDEPENDENT DIRECTORS

Independent directors play a key role in the decision making process of the Board as they approve the overall strategy of the Company and oversee performance of the management. The Independent Directors are committed to act in the best interest of the Company and its stakeholders. The Independent Directors are professionals, with expertise and experience in general corporate management, legal, public policy, finance, banking and other allied fields. This wide knowledge of their fields of expertise as well as the boardroom practices helps foster varied, unbiased, independent and experienced perspective. The Company benefits immensely from their inputs in achieving its strategic direction.

Separate meeting of Independent Directors:

In accordance with the provisions of Section 149(8) read with Schedule IV of the Act and Regulation 25(3) and (4) of the Listing Regulations and Secretarial Standards, a separate meeting of the Independent Directors of the Company was held on February 12, 2022. All Independent Directors were present at the meeting with no presence of Non-Independent Directors and Members of the Management for transacting following agenda:

- i. Review the performance of Non-Independent Directors and the Board as a whole;
- ii. Review the performance of the Chairperson of the Company, taking into account the views of Executive Directors and Non-Executive Directors;
- iii. Assess the quality, quantity and timeliness of flow of information between the Company Management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

The Company has received a declaration from the Independent Directors confirming that they meet the criteria of independence as prescribed under Section 149(6) and (7) of the Act read with Regulation 16(1)(b) of the Listing Regulations. In terms of Regulation 25(8) of the Listing Regulations, the Independent Directors have confirmed that they are not aware of any circumstances or situations which exist or may be reasonably anticipated that could impair or impact their ability to discharge their duties. The Board based on the declarations received from the Independent Directors has verified the veracity of such disclosures. In the opinion of the Board, all the Independent Directors fulfill the conditions specified in the Listing Regulations and they are independent of the management.

In accordance with the provisions of Section 150 of the Act read with the applicable Rules framed thereunder, the Independent Directors of the Company have registered themselves in the Independent Directors data bank maintained by the Indian Institute of Corporate Affairs ("IICA"). The Independent Directors, unless exempted, are required to pass an online proficiency self-assessment test conducted by IICA within one year from the date of their registration on IICA databank.

Familiarization Programme:

The Independent Directors of the Company are appraised by the Company through formal and informal ways, from time to time and as and when a new Independent Director is appointed on the Board. Periodic presentations are being made to them at the Board and its various Committees meetings the amendments in Company Law, Listing Regulations and SEBI Regulations, Corporate Governance Related Party Transactions, Internal Control over Financial Reporting, and Internal Audit Plans, Update on Terms of Reference of Committees, Role of Audit Committee CSR, sustainability & Human Resource etc. Besides that the Independent Directors interact with the Company's senior management to get insight on the business developments, competition in the market, regulatory changes etc. Pursuant to Regulation 46 of the Listing Regulations, the details of the familiarization programme for the Directors are available on the Company's website <http://www.ttspl.in/Document/Familiarization.pdf>

ECONOMIC OVERVIEW

Global Logistics Industry

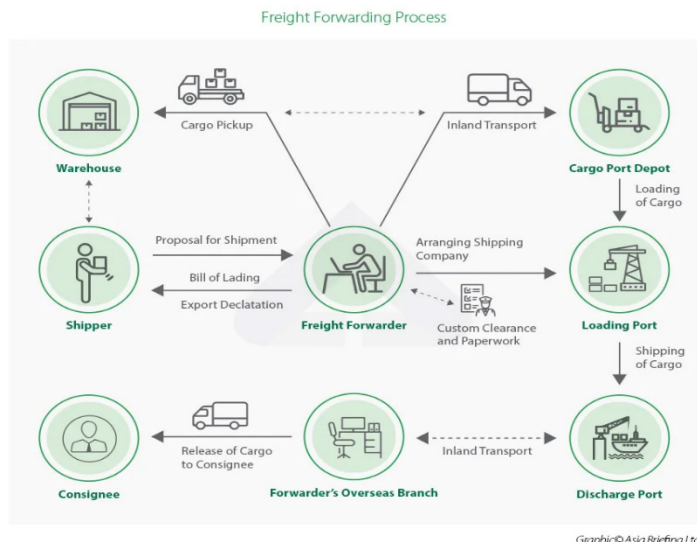

The Sea Freight Forwarding Market is expected to grow at a CAGR of more than 3% during the forecasted period. The global sea freight forwarding market is booming, owing to the growing internet penetration, increasing Purchasing Power Parity, developments in infrastructure and services designed particularly for the e-commerce industry. The sea freight forwarding has emerged as a preferred mode among the several end-user industries and several strategic partnerships are also likely to promote the growth of sea freight forwarding during the forecast period. The growing global cross border e-commerce market is driving the LCL volume and is positively impacting the sea freight forwarding market growth.

The growth in international trade volumes is a major driver for the freight forwarding market. Moreover, the rise in trade agreements between countries is also contributing to the growth of the market. Asia-Pacific is the fastest growing and the largest market for freight forwarding, with the Chinese freight forwarding market holding the maximum share.

Being non-asset based, the sector is facing high competition from other players in supply chain and technology-based companies, which are disrupting the freight forwarding market. The market is one of the sectors that were hit the hardest by the COVID-19 outbreak in 2020. With the lockdown in many countries and a major focus on the production of essential products, the volumes of air and ocean freight fell significantly in 2020. However, the market is now recovering, backed by the manufacturing and e-commerce industries, especially the air freight forwarding market, with significant thrust during the period, as reported by the International Air Transport Association (IATA) in January 2021.

Indian Logistics Industry

Increasing integration with the global economy coupled with improving production activity and consumption trends at home has presented the Indian freight forwarding industry with attractive opportunities. For instance, India's exports amounted to US\$417.8 billion and import volume rose to US\$610 billion during FY 2021-22. Such high figures are indicative of the large volume of trade involving India and validate the market demand for logistics. This has allowed the Indian freight forwarding industry to thrive.

As large corporations now prefer to focus on their core business activities, supply chain distribution gets outsourced to intermediaries. This has resulted in a demand for freight forwarders, who operate in a highly cost-effective manner.

According to report the Indian e-commerce logistics market is expected to reach US\$ 11.48 billion by 2027 from US\$ 2.93 billion in 2019; it is estimated to grow at a CAGR of 18.8% from 2020 to 2027.

The Indian e-commerce logistics market is flourishing due to increase in internet penetration, rise in adoption of smartphones, favourable demographics, surge in acceptability of online payment, and emergence of several new e-commerce players on social media. Further, supportive government initiatives to boost infrastructure development and implantation of GST have improved the delivery of e-commerce goods across the country. However, the cybersecurity risk is expected to hamper the Indian e-commerce logistics market to a certain extent.

The COVID-19 pandemic has resulted in fuelling the growth of the e-commerce logistics sector. E-commerce players are seeking alternative warehousing locations to help in the continuity of their business, along with mitigating delivery delays. With the rising awareness for social distancing among Indians, people have started opting for online platforms more than before, even in rural areas. Further, extended lockdowns in several countries have resulted in disrupting the supply chain. E-commerce logistics players are leveraging options, such as contactless deliveries, to mitigate the risk of infection, further boosting the demand for online sales. Also, several retailers across the country are going online to expand their reach. It has offered a wider choice of goods to the customers at competitive pricing, thus boosting e-commerce sales. According to a report published by Unicommerce titled - E-commerce Trends Report 2020, as of June 2020, India's e-commerce industry noticed an overall order-volume growth of 17% post the outbreak of COVID-19.

- The unprecedented and wide spread of the COVID 19 virus

SEGMENT- WISE OR PRODUCT- WISE PERFORMANCE

The Company is engaged in the business of Consolidation/deconsolidation of cargo freight forwarding, logistics, warehousing and transportation along with last mile delivery business. The Company is dealing only in this single segment and hence segment wise performance is not applicable to the Company.

RISKS AND CONCERNS

Like every business, the Company faces risks, both internal and external, in the undertaking of its day-to-day operations and in pursuit of its longer-term objectives. A detailed policy drawn up and dedicated risk workshops are conducted and key support functions wherein risks are identified, assessed, analyzed, and accepted / mitigated to an acceptable level within the risk appetite of the organization. The risk registers are also reviewed from time to time.

The Company faces the following Risks and Concerns:

Credit Risk

To manage its credit exposure, Total has determined a credit policy with credit limit requests and approval procedures. Company does its own research of client's financial health and project prospects before bidding for a project. Timely and rigorous process is followed up with clients for payments as per schedule. The Company has suitably streamlined the process to develop a focused and aggressive receivables management system to ensure timely collections.

Annual Report F.Y. 2021-2022

Interest Rate Risk

The Company has judiciously managed the debt-equity ratio. It has been using a mix of loans and internal cash accruals. The Company has well managed the working capital to reduce the overall interest cost.

Competition Risk

This risk arises from more players wanting a share in the same pie. Like in most other industries, opportunity brings with itself competition. We face different levels of competition in each segment, from domestic as well as multinational companies. The Company has created strong differentiators in project execution, quality and delivery which make it resilient to competition. Furthermore, the Company continues to invest in technology and its people to remain ahead of the curve. A strong, stable client base consisting of large and mid-sized corporations further helps to insulate the Company from this risk.

Liability Risk

This risk refers to our liability arising from any damage to cargo, equipment, life and third parties which may adversely affect our business. The Company attempts to mitigate this risk through contractual obligations and insurance policies.

INTERNAL CONTROL SYSTEMS AND ADEQUACY –

The Company implemented proper and adequate systems of internal control to ensure that all assets are safeguarded and protected against loss from any unauthorized use or disposition and all transactions are authorized, recorded and reported correctly. The Company also implemented effective systems for achieving highest level of efficiency in operations, to achieve optimum and effective utilization of resources, monitoring thereof and the compliance with provisions all laws including the Companies Act, 2013, Listing Agreement, directions issued by the Securities and Exchange Board of India, labour laws, tax laws etc. It also aimed at improvement in financial management, and investment policy. The System ensures appropriate information flow to facilitate effective monitoring. The internal audit system also ensures formation and implementation of corporate policies for financial reporting, accounting, information security, project appraisal, and corporate governance. A qualified and independent Audit Committee of the Board of Directors also reviews the internal control system and its impacts on improvement of overall performance of the Company.

HUMAN RESOURCES

The Company's HR philosophy is to establish and build a high performing organization, where each individual is motivated to perform to the fullest capacity: to contribute to developing and achieving individual excellence and departmental objectives and continuously improve performance to realize the full potential of our personnel. As on March 31, 2022, Company is giving direct employment to 332 employees.

OUTLOOK

The traditional logistics industry in India is witnessing a significant shift toward digitization and contactless operations due to the COVID-19 pandemic. The robust growth in manufacturing envisioned through the "Make in India" initiative will demand high levels of logistical efficiency, which means that goods must be produced and efficiently transported to markets at reasonable prices.

The Multi-Modal Logistics Parks (MMLPs) policy is a key policy initiative of the Government of India to improve the country's logistics sector. This initiative will lower freight costs, reduce vehicular pollution and congestion, and cut warehouse costs to promote domestic and global trade. The government is also focusing on strengthening the market in terms of competition, reduced freight rates and barriers, and technological developments. The agricultural, retail, and manufacturing sectors are boosting the country's freight and logistics industry.

The e-commerce sector is becoming extremely popular with the introduction of online payment platforms such as Amazon Pay, Paytm, Gpay, and new popular delivery apps. Due to digitization and increase in e-commerce business our last mile delivery business 'Abhilaya' has gained momentum which should give us an edge over other competitor.

The Company focuses on achieving sustainable growth through higher volumes in the freight forwarding as well as last mile delivery business by constantly partnering and adding new stations and delivery hubs. This is all possible with the support of our hard working and dedicated employees who have been our strength throughout.

In accordance with the SEBI (Listing Obligations and Disclosure Requirements) (Amendment) Regulations 2018, the Company

is required to give details of significant changes (Change of 25% or more as compared to the immediately previous year) in key sector specified financial ratio.

COMMENTS ON RATIO:-

1. The credit offered is in line with the Industry trend. The receivable of Volume shipments done has lifted year end receivable, which is been recovered subsequently.
2. With the growth in Business, we have got enhanced Cash Credit limit from the Bank. However, Global Pandemic Covid 19 has adversely affected EBITDA
3. Though company has got additional working capital from the Bank, it has Interest cost associated with it. Global Pandemic Covid 19 has adversely affected EBIT
4. The company has handled Volume shipments in this year. This has resulted in temporary increase of Receivable and Payable. The AR and AP has been squared off in the subsequent period.
5. The company has handled Volume shipments in this year. This has resulted in temporary increase of Local Creditors Payable at the year end. This is been squared off in the subsequent period.
6. The company has ventured into new Business Line - Last Mile delivery, which has not yet reached Brake even point. As explained earlier, the company has handled Volume shipment at lesser margin. Additionally Global Pandemic Covid 19 has affected adversely.
7. The company has ventured into new Business Line - Last Mile delivery, which has not yet reached Brake even point. As explained earlier, the company has handled Volume shipment at lesser margin. Additionally Global Pandemic Covid 19 has affected adversely.
8. The company has ventured into new Business Line - Last Mile delivery, which has not yet reached Brake even point. As explained earlier, the company has handled Volume shipment at lesser margin. Additionally Global Pandemic Covid 19 has affected adversely.

Independent Auditors Report

To Members of Total Transport Systems Limited

Report on the Audit of the Standalone Financials Statements

Opinion

We have audited the standalone Ind AS financial statements of Total Transport Systems Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2022, and the statement of Profit and Loss, the Statement of Changes in Equity and statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit including other comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Basis of Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone Ind AS financial statements.

Contingent Liability

Refer Note 29, For the year ended 31st March 2022 the company has contingent liabilities of Rs.1,180.76 lakhs towards contested tax demands/ pending litigation.

A provision is recognised when there is a present obligation as a result of a past event from which it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a realisable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow or resources is remote, no provision or disclosure is made.

This area is considered as a key audit matter, as evaluation of these matters requires Management judgement and estimation, interpretation of laws and regulations and application of relevant judicial precedents to determine the probability of outcome of ongoing proceedings and outflow of economic resources, if any, and the recognition of provisions, disclosure of contingent liabilities and related disclosures to be made in the standalone financial statements.

Audit Procedures to address the Key Audit Matter

We have assessed the company's accounting policy as per Ind AS-37 "Provisions, Contingent Liabilities and Contingent Assets". Obtained details of completed tax assessments and demands for the year ended March 31, 2022 from Management. We reviewed the same to challenge the managements underlying assumptions in estimating the tax provision and the possible outcome of the disputes. We have also evaluated the appropriateness and adequacy of disclosures prepared and presented by the management in the financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprise the information included in the annual report, but does not include the financial statements and our auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance

Annual Report F.Y. 2021-2022

conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on 31st March, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B"
- g) In our opinion, the Company has paid/ provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with schedule V of the Companies Act 2013.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 29 to the financial statements;
 - ii. The Company has made provision, as required under the applicable law or Indian Accounting Standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company
 - iv. (a) As per the information and explanation given to us by the management, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) As per the information and explanation given to us by the management, no funds have been received by the company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

Annual Report F.Y. 2021-2022

- (c) On the basis of above representations, nothing has come to our notice that has caused us to believe that the above representations contained any material misstatement.
- v. The interim dividend declared and paid by the Company during the year and until the date of this audit report is in accordance with Section 123 of the Act.
- vi. Pursuant to Ministry of Corporate Affairs notification dated 24.03.2021 read with notification dated 31.03.2022 requirement of reporting by the auditor on use of accounting software for maintaining its books of account with audit trail (edit log) facility has been deferred till 01.04.2023.

- xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

Annual Report F.Y. 2021-2022

- xx. a) The company has not transferred the amount remaining unspent in respect of other than ongoing projects, to a Fund specified in Schedule VII to the Companies Act, 2013 till the date of our report. However, the time period for such transfer i.e. six months of the expiry of the financial year as permitted under the second proviso to sub-section (5) of section 135 of the Act, has not elapsed till the date of our report.

Annexure – B to the Auditor's Report**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of **TOTAL TRANSPORT SYSTEMS LIMITED** ("the Company") as of 31st March, 2022 in conjunction with our audit of standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annual Report F.Y. 2021-2022

NOTES FORMING PART OF THE FINANCIAL STATEMENTS AS AT 31ST MARCH, 2022

NOTE 1.1: CORPORATE INFORMATION

TOTAL TRANSPORT SYSTEMS LIMITED was incorporated under the provisions of the Companies Act, 1956 vide certificate of incorporation dated July 27, 1995 having its Registered office at 7th Floor, T-Square, Opposite Chandivali Petrol Pump, Saki Vihar Road, Andheri (E), Mumbai- 400072. The Company is in the business of consolidation/deconsolidation of cargo, freight forwarding, logistics, warehousing and transportation.

NOTE 1.2: SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting and preparation of financial statements:

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (the 'Ind AS') notified under the Companies (Indian Accounting Standards) Rules, 2015 under the provisions of the Companies Act, 2013 (the 'Act') and subsequent amendments thereof. These financial statements are prepared under the historical cost convention on the accrual basis except for derivative financial instruments and certain other financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments). The financial statements have been prepared on a going concern basis.

Current versus Non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset is treated as current when it is:

- expected to be realized or intended to sold or consumed in normal operating cycle or twelve months after reporting period,
- held primarily for the purpose of trading or
- cash or cash equivalent unless restricted from being exchanged or used to settle liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is treated as current when it is:

- expected to be settled in normal operating cycle or within twelve months after reporting period,
- it is held primarily for the purpose of trading or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

a) **Foreign Currency:**

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian Rupees (INR), which is the Company's functional and presentation currency.

Transactions in foreign currencies are initially recorded at their respective functional currency (i.e. Indian rupee) spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Exchange differences arising on translation / settlement of foreign currency monetary items are recognized as income or expenses in the period in which they arise.

b) **Fair Value Measurement:**

The Company measures financial instruments, such as, investments at fair value at each balance sheet.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction

NOTES FORMING PART OF THE FINANCIAL STATEMENTS AS AT 31ST MARCH, 2022

between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as properties and unquoted financial assets, and significant liabilities, such as contingent consideration.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

c) **Investments and Other Financial Assets**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Company reclassifies debt investments when and only when its business model for managing those assets changes.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group

NOTES FORMING PART OF THE FINANCIAL STATEMENTS AS AT 31ST MARCH, 2022

classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised under other income. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented in the statement of profit and loss under other income in the period in which it arises. Interest or dividend income, if any from these financial assets is separately included in other income.

Impairment of Financial Assets: The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Equity investments (other than Investments in subsidiaries and associates): The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments continue to be recognized in profit or loss as other income when the Company's right to receive payments is established. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other income in the statement of profit and loss.

Equity Investments (in subsidiaries and associates): Investments in subsidiaries and associates are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. The accounting policy on impairment of non-financial assets is disclosed in **Note r** below. On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the statement of profit and loss.

d) **Revenue Recognition:**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to credit risks.

Revenue is recognized for Sea Export, based on Shipped on Board (SOB) date for Sea export, based on date when vessel has taken berth in the port for Sea Import, and based on Actual flight date for Air export and Air Import.

e) **Taxes:**

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside the Statement of Profit and Loss is recognized outside the Statement of Profit and Loss (either in other comprehensive income or in equity). Management periodically

NOTES FORMING PART OF THE FINANCIAL STATEMENTS AS AT 31ST MARCH, 2022

evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is provided using liability approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside statement of profit and loss is recognized outside statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI (Other Comprehensive Income) or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

f) **Property, plant and equipment:**

Freehold land is carried at historical cost. Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises the purchase price and any cost attributable to bringing the asset to its working condition for its intended use. Borrowing cost relating to acquisition of tangible assets which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use. Capital work in progress is stated at cost.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in statement of profit and loss as incurred.

Depreciation

Depreciation is calculated on a reducing balance basis over the estimated useful lives of the assets as follows:

Category	Useful lives (in years)
Building	30 to 60
Furniture and Fixtures	10
Office Equipment	5
Vehicle	8 to 10
Computer	3 to 6

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

g) **Borrowing Costs:**

Borrowing costs includes interest and amortization of ancillary cost over the period of loans which are incurred in connection with arrangements of borrowings.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS AS AT 31ST MARCH, 2022

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

h) Leases:

Leases are recognised as a right-of-use asset and a corresponding liability at that date at which the lease asset is available for use by the Company. Contracts may contain both lease and non-lease components. The Company allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of the contract. Ind AS 116 defines a lease as a contract, or a part of a contract, that convey as the right of use an asset (the underlying asset) for a period of time in exchange of consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expenses on a straight line basis over the term of the lease.

i) Provisions:

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

j) Contingent Liabilities:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extreme rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

k) Retirement and other employee benefits:

- **Short-term employee benefits**

Employee benefits payable wholly within twelve months of availing employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits such as salaries and wages, bonus and ex-gratia to be paid in exchange of employee services are recognized in the period in which the employee renders the related service.

- **Post-employment benefits**

Defined Contribution Plans:

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Company makes specified monthly contributions towards Provident Fund and Employees State Insurance Corporation ('ESIC'). The contribution is recognized as an expense in the Statement of Profit and Loss during the period in which employee renders the related service. There are no other obligations other than the contribution payable to the Provident Fund

NOTES FORMING PART OF THE FINANCIAL STATEMENTS AS AT 31ST MARCH, 2022

and Employee State Insurance Scheme.

Defined Benefit Plan:

Gratuity liability, wherever applicable, is provided for on the basis of an actuarial valuation done as per projected unit credit method, carried out by an independent actuary at the end of the year. The Company's gratuity benefit scheme is a defined benefit plan.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

l) Cash and cash equivalents:

Cash comprise of cash on hand and demand deposits at the bank. Cash equivalents comprise of short term highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and demand deposit, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

m) Cash flow statement:

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of noncash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated in the Cash flow statement.

n) Earning per share:

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit of the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

o) Non-current assets held for sale:

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

Property, plant and equipment and intangible assets once classified as held for sale to owners are not depreciated or amortized.

p) Intangible Assets:

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS AS AT 31ST MARCH, 2022

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

q) Investment Property:

An investment in land or building, which is not intended to be occupied substantially for use by, or in the operations of the Company, is classified as investment property. Investment properties are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in statement of profit and loss as incurred.

Depreciation on building component of investment property is calculated on a straight-line basis using the rate arrived at based on the useful life estimated by the management which is 60 years.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the International Valuation Standards Committee or on the basis of appropriate ready reckoner value based on recent market transactions.

Investment properties are derecognized either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in statement of profit and loss in the period of derecognition.

r) Impairment of non-financial assets:

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset exceeds neither its recoverable amount nor the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

s) Financial liabilities

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss.

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the statement of profit and loss.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

t) **Rounding of amounts**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakh as per the requirement of Schedule III, unless otherwise stated

u) **Reclassification**

Previous year figures have been reclassified / regrouped wherever necessary.

1.3 Significant accounting judgements, estimates and assumptions:

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Some of the significant accounting judgement and estimates are given below:

Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries. The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets.

d. The management assessed that cash and cash equivalents, trade receivables, trade payable, short term borrowings, bank overdrafts and other current liabilities approximate their carrying amounts largely due to the short term maturities of these instruments and are thus measured at amortized cost.

Annual Report F.Y. 2021-2022**Note 31 : Financial Risk Management**

"The holding Company's principal financial liabilities, comprises of loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations.

The holding Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also holds investments."

The holding Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

A. Management of Market Risk

The holding Company's size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- a. interest rate risk
- b. currency risk
- c. Price risk

The above risks may affect the Company's income or the value of its financial instruments. The objective of the Company's management of market risk is to maintain this risk within acceptable parameters, while optimising returns. The Company's exposure to, and management of, these risks is explained below."

a. Interest Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates. The following table provides a break-up of the Company's fixed and floating rate borrowings

Particulars	31-Mar-22	31-Mar-21
Floating	2,563.52	2,312.95
Fixed	57.13	16.05

Interest Rate Sensitivity

For the year ended 31 March 2022 and 31 March 2021, every 1% depreciation / appreciation in the interest rate for floating borrowings, would have affected the Company's incremental operating margins approximately as stated below

(Rs in lakhs)		
Particulars	31-Mar-22	31-Mar-21
Current Finance Cost	181.28	222.85
Delta effect of (-/+) 1% change in the rate of interest	-27.54	-21.95

b. Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency).

Unhedged foreign currency exposures

"As at balance sheet date, the Company's net foreign currency exposure (receivable) that is not hedged is Rs. 1230.91 lakhs (31 March 2021: Rs. 677.61 lakhs)."

Foreign currency sensitivity

For the year ended 31 March 2022 and 31 March 2021, every 5% depreciation / appreciation in the exchange rate between the Indian rupee and U.S. dollar, would have affected the Company's incremental operating margins by approximately amounts as shown below. The Company's exposure to foreign currency changes for all other currencies is not material.

(Rs in lakhs)

Particulars	31-Mar-22	31-Mar-21
Delta effect of (+) 5% change in the rate of USD on realised gains/losses (Net)	-81.36	-23.74
Delta effect of (-) 5% change in the rate of USD on realised gains/losses (Net)	83.47	22.75
Delta effect of (+) 5% change in the rate of USD on unrealised gains/losses (Net)	81.51	-102.75
Delta effect of (-) 5% change in the rate of USD on unrealised gains/losses (Net)	-81.51	-157.49

c. Price Risk

The Company is mainly exposed to the price risk due to its investment in mutual funds, exchange traded funds and investments in equity instruments. The price risk arises due to uncertainties about the future market values of these investments. At March 31, 2022, the exposure to price risk due to investment in mutual funds amounted to 55 Lakhs (March 31, 2021 : Nil). At March 31, 2022, the exposure to price risk due to investment in equity instruments amounted to 35.15 Lakhs (March 31, 2021 : Nil). In order to manage its price risk arising from investments in mutual funds, exchange traded funds and investments in equity instruments, the Company diversifies its portfolio.

Particulars	31-Mar-22
Delta effect of (+) 1% change in the NAV of Mutual Fund gains/losses (Net)	-1.02
Delta effect of (-) 1% change in the NAV of Mutual Fund gains/losses (Net)	1.02
Delta effect of (+) 1% change in the Equity Prices gains/losses (Net)	-0.22
Delta effect of (-) 1% change in the Equity Prices gains/losses (Net)	0.22

B. Management of Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and financial institutions and other financial instruments.

Trade receivable

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored. The Company has diversified customer base considering the nature and type of business."

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 7. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Other Financial Assets

The Company maintains exposure in Cash and Cash equivalents, term deposits with banks / financial institutions and investments in marketable debt investments including the government securities. The company has diversified portfolio of investment with various number of counter parties which have secure credit ratings hence the risk is low. The Company's maximum exposure to Credit risk as at March 31, 2022 and 2021 is the carrying value of each class of financial assets as disclosed.

C. Management of Liquidity Risk

The holding Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, and bank loans. 95% of the Company's borrowing will mature in less than one year at 31 March 2022 (31 March 2021: 98%) based on the carrying value of borrowings reflected in the financial statements. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Company has the ability to rollover debt maturing within 12 months with existing lenders.

D. Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The holding Company aims to manage its capital efficiently so as to safeguard its ability to continue as a going concern and to optimise returns to our shareholders. The capital structure of the Company is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. We consider the amount of capital in proportion to risk and manage the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The holding Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Company will take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These

matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated Ind AS financial statements.

Contingent Liability

Refer Note 32, For the year ended 31st March 2022 the holding company has reported contingent liabilities of Rs.1,180.76 lakhs towards contested tax demands/ pending litigation.

A provision is recognised when there is a present obligation as a result of a past event from which it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a realisable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

This area is considered as a key audit matter, as evaluation of these matters requires Management judgement and estimation, interpretation of laws and regulations and application of relevant judicial precedents to determine the probability of outcome of ongoing proceedings and outflow of economic resources, if any, and the recognition of provisions, disclosure of contingent liabilities and related disclosures to be made in the financial statements.

Audit Procedures to address the Key Audit Matter

We have assessed the company's accounting policy as per Ind AS-37 "Provisions, Contingent Liabilities and Contingent Assets". Obtained details of completed tax assessments and demands for the year ended March 31, 2022 from Management. We reviewed the same to challenge the managements underlying assumptions in estimating the tax provision and the possible outcome of the disputes. We have also evaluated the appropriateness and adequacy of disclosures prepared and presented by the management in the financial statements.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including its Associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for assessing the ability of the Group and of its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the holding company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements

Annual Report F.Y. 2021-2022

of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements / financial information of one subsidiary (Total Transport Systems Private Limited incorporated in Nepal), whose financial statements / financial information reflect total assets of Rs. 90.06 Lakhs as at 31st March, 2022, total revenues of Rs. 217.34 Lakhs, Net Profit of 4.94 Lakhs and net cash flows amounting to Rs. (5.96) Lakhs for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net loss of Rs. 4.64 Lakhs for the year ended 31st March, 2022, as considered in the consolidated financial statements, in respect of one associates, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associates, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associates, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

Annexure – B to the Auditor’s Report**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of **TOTAL TRANSPORT SYSTEMS LIMITED** (“the Company”) and its subsidiary companies, and its associate company which are companies incorporated in India, as of that date as of 31st March, 2022 in conjunction with our audit of consolidated financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The respective Company’s management are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the holding Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (“the Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Basis for Qualified Opinion

According to the information and explanations given to us and based on our audit, the following material weakness has been reported in the audit report of One World Logistics Private Limited as at March 31, 2022:

- a. The Company did not have appropriate internal controls for physical security of cash collected on behalf of the customers. This has resulted in cash being misappropriated/ embezzled from the company premises in several instances, with minimal recovery. Also, there is no insurance taken by the company to cover such risks.

Annual Report F.Y. 2021-2022

Material Weakness

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

Qualified Opinion

In our opinion, except for the effects/possible effects of the material weaknesses described above on the achievement of the objectives of the control criteria, the Holding Company, its subsidiary companies and an associate company which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March, 31, 2022, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2022 consolidated financial statements of the Holding Company, and the material weaknesses does not affect our opinion on the consolidated financial statements of the Holding Company

Other matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to financial statements of one associate company, which is a company incorporated in India, is based on the corresponding report of the auditor of such company incorporated in India. Our opinion is not modified in respect of this matter.

CONSOLIDATED NOTES TO THE FINANCIAL STATEMENTS**AS AT 31ST MARCH, 2022****NOTE 1.1: CORPORATE INFORMATION**

TOTAL TRANSPORT SYSTEMS LIMITED was incorporated under the provisions of the Companies Act, 1956 vide certificate of incorporation dated July 27, 1995 having its Registered office at 7th Floor, T-Square, Opposite Chandivali Petrol Pump, Saki Vihar Road, Andheri (E), Mumbai- 400072. The Company is in the business of consolidation/deconsolidation of cargo, freight forwarding, logistics, warehousing and transportation.

NOTE 1.2: SIGNIFICANT ACCOUNTING POLICIES**1.1.1 Basis of accounting and preparation of financial statements:**

The Consolidated financial statements of the Group have been prepared in accordance with the Indian Accounting Standards (the 'Ind AS') notified under the Companies (Indian Accounting Standards) Rules, 2015 under the provisions of the Companies Act, 2013 (the 'Act') and subsequent amendments thereof. These financial statements are prepared under the historical cost convention on the accrual basis except for derivative financial instruments and certain other financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments). The financial statements have been prepared on a going concern basis.

Current versus Non-current classification

The Group presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset is treated as current when it is:

- expected to be realized or intended to sold or consumed in normal operating cycle or twelve months after reporting period,
- held primarily for the purpose of trading or
- cash or cash equivalent unless restricted from being exchanged or used to settle liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is treated as current when it is:

- expected to be settled in normal operating cycle or within twelve months after reporting period,
- it is held primarily for the purpose of trading or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

1.1.2 Basis of consolidation:

The CFS comprise the financial statements of the holding Company and its subsidiaries as at 31st March, 2022. The CFS also includes the Group's share of net assets of the subsidiary and the Group's share of profits.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has all of the below:

- a) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- b) Exposure, or rights, to variable returns from its involvement with the investee, and
- c) The ability to use its power over the investee to affect its returns

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

CFS are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the holding Company, i.e., year ended on 31 March.

Consolidation procedure:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Eliminate in full intra group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 'Income Taxes' applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the holding Company of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any noncontrolling interests
- Derecognizes the cumulative translation differences recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities

1.3 Summary of significant accounting policies

a) **Business Combination and goodwill**

The Company accounts for its business combinations under acquisition method of accounting. Acquisition related costs are recognized in profit and loss as incurred. The acquirer's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognized at their fair values at the acquisition date.

Purchase consideration paid in excess of the fair value of net assets acquired is recognized as goodwill. Where the fair value of identifiable assets and liabilities exceed the cost of acquisition, after reassessing the fair values of the net assets and contingent liabilities, the excess is recognized as capital reserve.

The interest of non-controlling shareholders is initially measured either at fair value or at the noncontrolling interests' proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity of subsidiaries.

Business combinations arising from transfers of interests in entities that are under the common control are accounted at historical cost. The difference between any consideration given and the aggregate historical carrying amount of assets and liabilities of the required entity are recorded in shareholders' equity.

b) Investment in associates and joint venture

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.

The Group's investments in its associate and joint venture are accounted for using the equity method. Under the equity method, the investment in an associate or a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The Group's investments in its associate and joint venture are accounted for using the equity method. Under the equity method, the investment in an associate or a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

If an entity's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture (which includes any long term interest that, in substance, form part of the Group's net investment in the associate or joint venture), the entity discontinues recognizing its share of further losses. Additional losses are recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the entity resumes recognizing its share of those profits only after its share of the profits equals the share of losses not recognized.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the statement of profit and loss.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognize an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognizes the loss as 'Share of profit of an associate and a joint venture' in the statement of profit or loss.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

c) Foreign Currency:

The Group's consolidated financial statements are presented in INR, which is also the parent company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in the Statement of Profit and Loss.

Exchange differences arising on settlement or translation of monetary items are recognized in profit or loss with the exception of the following:

- a) Exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognized in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that include the foreign operation and the reporting entity (e.g., consolidated financial statements when the foreign operation is a subsidiary), such exchange differences are recognized initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.

- b) Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

Exchange differences arising on translation / settlement of foreign currency monetary items are recognized as income or expenses in the period in which they arise.

Group Companies

On consolidation, the assets and liabilities of foreign operations are translated into INR at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognized in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognized in profit or loss.

Any goodwill arising in the acquisition/ business combination of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

Gain or loss on a subsequent disposal of any foreign operation excludes translation differences that arose before the date of transition but includes only translation differences arising after the transition date.

d) Fair Value Measurement:

The Group measures financial instruments, such as, investments at fair value at each balance sheet.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Annual Report F.Y. 2021-2022

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as properties and unquoted financial assets, and significant liabilities, such as contingent consideration.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

e) **Investments and Other Financial Assets**

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Group reclassifies debt investments when and only when its business model for managing those assets changes.

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised under other income. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented in the statement of profit and loss under other income in the period in which it arises. Interest or dividend income, if any from these financial assets is separately included in other income.

Impairment of Financial Assets: The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Equity investments (other than Investments in subsidiaries and associates): The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments continue to be recognized in profit or loss as other income when the Company's right to receive payments is established. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value. Changes in the fair value of financial assets at fair value through profit or loss are recognised in other income in the statement of profit and loss.

f) Revenue Recognition:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. The Group has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to credit risks.

Multimodal Transport Income

Revenue is recognized for Sea Export, based on Shipped on Board (SOB) date for Sea export, based on date when vessel has taken berth in the port for Sea Import, and based on Actual flight date for Air export and Air Import.

Last Mile Delivery

Revenue for Last Mile Delivery is recognized when the consignment is delivered as per terms of service agreed with the principal.

g) Taxes:

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside the Statement of Profit and Loss is recognized outside the Statement of Profit and Loss (either in other comprehensive income or in equity). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is provided using liability approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside statement of profit and loss is recognized outside statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation

Annual Report F.Y. 2021-2022

to the underlying transaction either in OCI (Other Comprehensive Income) or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognized subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognized within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognized in OCI/ capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realized are recognized in profit or loss.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

h) Property, plant and equipment:

Freehold land is carried at historical cost. Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises the purchase price and any cost attributable to bringing the asset to its working condition for its intended use. Borrowing cost relating to acquisition of tangible assets which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use. Capital work in progress is stated at cost.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in statement of profit and loss as incurred.

Depreciation

Depreciation is calculated on a reducing balance method over the estimated useful lives of the assets as follows:

Category	Useful lives (in years)
Building	30 to 60
Furniture and Fixtures	10
Office Equipment	5
Vehicle	8 to 10
Computer	3 to 6

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

In case of foreign subsidiaries, the tangible assets are depreciated on a reducing balance method basis, based on expected economic life of the assets estimated on the basis of internal assessment by the management which are lower in some cases than the lives prescribed under Part C of Schedule II of the Act.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

i) Borrowing Costs:

Borrowing costs includes interest and amortization of ancillary cost over the period of loans which are incurred in connection with arrangements of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

j) Leases:

Leases are recognised as a right-of-use asset and a corresponding liability at that date at which the lease asset is available for use by the Group. Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

The Group's lease asset classes primarily consist of leases for land and buildings. The Group assesses whether a contract contains a lease, at inception of the contract. Ind AS 116 defines a lease as a contract, or a part of a contract,

that convey as the right of use an asset (the underlying asset) for a period of time in exchange of consideration. To assess whether as contract conveys the right to control the use of an identified asset, the Group assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expenses on a straight line basis over the term of the lease.

k) Provisions:

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

l) Contingent Liabilities:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extreme rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

m) Retirement and other employee benefits:

- Short-term employee benefits

Employee benefits payable wholly within twelve months of availing employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits such as salaries and wages, bonus and ex-gratia to be paid in exchange of employee services are recognized in the period in which the employee renders the related service.

- Post-employment benefits

Defined Contribution Plans:

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Group makes specified monthly contributions towards Provident Fund and Employees State Insurance Corporation ('ESIC'). The contribution is recognized as an expense in the Statement of Profit and Loss during the period in which employee renders the related service. There are no other obligations other than the contribution payable to the Provident Fund and Employee State Insurance Scheme.

Defined Benefit Plan:

Gratuity liability, wherever applicable, is provided for on the basis of an actuarial valuation done as per projected unit credit method, carried out by an independent actuary at the end of the year. The Company's gratuity benefit scheme is a defined benefit plan.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

n) Cash and cash equivalents:

Cash comprise of cash on hand and demand deposits at the bank. Cash equivalents comprise of short term highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Annual Report F.Y. 2021-2022

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and demand deposit, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

o) Cash flow statement:

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of noncash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated in the Cash flow statement.

p) Earning per share:

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit of the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

q) Non-current assets held for sale:

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

Property, plant and equipment and intangible assets once classified as held for sale to owners are not depreciated or amortized.

r) Intangible Assets:

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Amortization is calculated on a Straight Line Basis over the estimated useful lives of the assets as follows:

Category	Useful lives (in years)
Software	5

s) Investment Property:

An investment in land or building, which is not intended to be occupied substantially for use by, or in the operations of the Group, is classified as investment property. Investment properties are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in statement of profit and loss as incurred.

Depreciation on building component of investment property is calculated on a straight-line basis using the rate arrived at based on the useful life estimated by the management which is 60 years.

Though the Group measures investment property using cost based measurement, the fair value of investment

property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the International Valuation Standards Committee or on the basis of appropriate ready reckoner value based on recent market transactions.

Investment properties are derecognized either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in statement of profit and loss in the period of derecognition.

t) Impairment of non-financial assets:

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset exceeds neither its recoverable amount nor the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Goodwill is tested for impairment annually as at 31 March and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

u) Financial liabilities

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss.

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the statement of profit and loss.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

v) Share Based Payments

Equity-settled share based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details regarding the same are set out in Note 31. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each financial year, the Group revises its estimate of the number of equity instruments

Annual Report F.Y. 2021-2022

expected to vest. The impact of revision is recognised in the Consolidated Statement of Profit and Loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the Share Based Payment Reserve.

w) **Rounding of amounts**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakh as per the requirement of Schedule III, unless otherwise stated

x) **Reclassification**

Previous year figures have been reclassified / regrouped wherever necessary.

1.4 Significant accounting judgements, estimates and assumptions:

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Some of the significant accounting judgement and estimates are given below:

Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries. The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See Note 32 for further disclosures.

Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets.

d. The management assessed that cash and cash equivalents, trade receivables, trade payable, short term borrowings, bank overdrafts and other current liabilities approximate their carrying amounts largely due to the short term maturities of these instruments and are thus measured at amortized cost.

Note 34 : Financial Risk Management

The Group's principal financial liabilities, comprises of loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Group's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Group also hold investments in bonds.

The Group is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

A. Management of Market Risk

"The Group's size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- a. interest rate risk
- b. currency risk
- c. Price risk

The above risks may affect the Group's income or the value of its financial instruments. The objective of the Group's management of market risk is to maintain this risk within acceptable parameters, while optimising returns. The Group's exposure to, and management of, these risks is explained below."

a. Interest Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates. The following table provides a break-up of the Company's fixed and floating rate borrowings

Particulars	31-Mar-22	31-Mar-21
Floating	2,563.52	2,312.95
Fixed	82.30	16.05

Interest Rate Sensitivity

For the year ended 31 March 2022 and 31 March 2021, every 1% depreciation / appreciation in the interest rate for floating borrowings, would have affected the Company's incremental operating margins approximately as stated below

(Rs in lakhs)		
Particulars	31-Mar-22	31-Mar-21
Current Finance Cost	194.96	230.43
Delta effect of (-/+) 1% change in the rate of interest	27.54	21.95

b. Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency)

Unhedged foreign currency exposures

As at balance sheet date, the Company's net foreign currency exposure (receivable) that is not hedged is Rs. 1230.91 lakhs (31 March 2021: Rs. 677.61 lakhs).

Annual Report F.Y. 2021-2022

Foreign currency sensitivity

For the year ended 31 March 2022 and 31 March 2021, every 5% depreciation / appreciation in the exchange rate between the Indian rupee and U.S. dollar, would have affected the Company's incremental operating margins by approximately amounts as shown below. The Company's exposure to foreign currency changes for all other currencies is not material.

(Rs in lakhs)		
Particulars	31-Mar-22	31-Mar-21
Delta effect of (+) 5% change in the rate of USD on realised gains/losses (Net)	-81.36	-28.28
Delta effect of (-) 5% change in the rate of USD on realised gains/losses (Net)	83.47	27.29
Delta effect of (+)5% change in the rate of USD on unrealised gains/losses (Net)	81.51	-102.75
Delta effect of (-)5% change in the rate of USD on unrealised gains/losses (Net)	-81.51	-157.49

c. Price Risk

The Company is mainly exposed to the price risk due to its investment in mutual funds, exchange traded funds and investments in equity instruments. The price risk arises due to uncertainties about the future market values of these investments. At March 31, 2022, the exposure to price risk due to investment in mutual funds amounted to 55 Lakhs (March 31, 2021 : Nil). At March 31, 2022, the exposure to price risk due to investment in equity instruments amounted to 35.15 Lakhs (March 31, 2021 : Nil).

a. Management of Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Trade receivable

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored. The Company has diversified customer base considering the nature and type of business."

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 7. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

C. Management of Liquidity Risk

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, and bank loans. 94% of the Company's borrowing will mature in less than one year at 31 March 2022 (31 March 2021: 90%) based on the carrying value of borrowings reflected in the financial statements. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Company has the ability to rollover debt maturing within 12 months with existing lenders.

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2022.

D. Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company aims to manage its capital efficiently so as to safeguard its ability to continue as a going concern and to optimise returns to our shareholders. The capital structure of the Company is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. We consider the amount of capital in proportion to risk and manage the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Company will take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.
