**Annual Report F.Y. 2023-2024**

---

**Dear Valued Shareholders,**

On behalf of the Board of Directors, I am pleased to present the Annual Report and Consolidated Financial Statements of Total Transport Systems Limited for the financial year ended 31 March 2024 (FY2024).

It is with immense pleasure and gratitude that I address you today, reflecting on the journey of Total Transport Systems Limited over the past financial year. As we navigate through the challenges and triumphs of the global market, it is crucial to acknowledge the dedication and resilience of our team, the unwavering support of our shareholders, and the trust bestowed upon us by our valued clients.

Reflecting on our trajectory, we must acknowledge the shifting tides of the freight industry. The challenges encountered this year, particularly the drastic decline in freight levels, have undoubtedly tested our mettle. However, despite the industry-wide turbulence, we have remained steadfast in our commitment to adapt and evolve. While our turnover experienced a decline, it is noteworthy that we have managed to maintain a considerable resilience, thanks to our strategic initiatives and prudent management.

One of the most notable successes of the past year has been the remarkable growth of our Full Container Load (FCL) business. Witnessing a doubling in volume is a testament to our team's efforts and our ability to capitalize on emerging opportunities. Additionally, the resurgence in freight levels, particularly in the export segment, bodes well for our future prospects.

Our foray into the Last Mile Delivery (LMD) segment, under the brand name "Abhilaya," stands as a testament to our commitment to innovation and diversification. From humble beginnings, we have scaled new heights, handling millions of shipments monthly on a Pan India basis. Our strategic partnerships and relentless focus on customer satisfaction have been instrumental in this journey of exponential growth.

In reflecting on our achievements, it brings me great joy to share the monumental milestones reached by our Last Mile Delivery segment. In October 2023, "Abhilaya" achieved an unprecedented feat by handling astounding 43.74-lakh shipments, marking the highest monthly volume in the past five years. This remarkable growth underscores our commitment to excellence and customer satisfaction.

I am also thrilled to announce the successful launch of the Export LCL Movement from ICD Ankleshwar to Nava Sheva (JNPT) in March 2024. This significant initiative represents a pivotal moment in the region's trade ecosystem, catering to the long-standing demand of EXIM traders from South Gujarat. By expanding our footprint and enhancing connectivity, we are facilitating smoother trade flows and empowering businesses to thrive in the global marketplace.

Furthermore, our expansion into the 3PL logistics sphere signifies our proactive approach towards meeting the evolving needs of the market. By leveraging our expertise and infrastructure, we aim to not only enhance our service offerings but also strengthen our presence in key regions such as Bangalore and Delhi NCR.

Looking ahead, we are poised for even greater accomplishments. With strategic collaborations in the pipeline, we are laying the groundwork for sustainable growth and profitability. Moreover, our planned expansion into international markets, such as Ghana, underscores our commitment to exploring new frontiers and maximizing value for our stakeholders.

In closing, I would like to express my sincerest gratitude to our shareholders, employees, and clients for their unwavering support and dedication. As we embark on the next phase of our journey, rest assured, Total Transport Systems Limited remains steadfast in its pursuit of excellence, innovation, and sustainable growth.

Sincerely,

**Annual Report F.Y. 2023-2024****Notes:**

1. Pursuant to General Circulars No.14/2020 dated April 8, 2020; No.17/2020 dated April 13, 2020; No.20/2020 dated May 5, 2020; No. 02/2021 dated January 13, 2021; No. 21/2021 dated December 14, 2021; No. 2/2022 dated May 5, 2022; No. 10/2022 dated December 28, 2022; and No.09/23 dated September 23, 2023; issued by the Ministry of Corporate Affairs (collectively referred to as 'MCA Circulars'), the Company is convening the 29<sup>th</sup> Annual General Meeting (AGM) through Video Conferencing (VC)/Other Audio Visual Means (OAVM), without the physical presence of the Members at a common venue.

Further, the Securities and Exchange Board of India (SEBI), vide its Circulars dated May 12, 2020, January 15, 2021, May 13, 2022, January 5, 2023, and October 7, 2023 (SEBI Circulars) and other applicable circulars issued in this regard, have provided relaxations from compliance with certain provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Listing Regulations). In compliance with the applicable provisions of the Companies Act, 2013 (the Act), the Listing Regulations and MCA Circulars, the 29<sup>th</sup> AGM of the Company is being held through VC/OAVM on **Saturday, September 14, 2024, at 5:00 P.M.(IST)**.

2. For the purpose of the Companies Act, 2013 ("Act"), the proceedings of the meeting shall be deemed to be conducted at the Registered Office of the Company situated at 7th floor T-Square Opp. Chandivali Petrol Pump, Sakinaka Andheri (East) Mumbai City- 400072, Maharashtra, India.
3. Details of the directors seeking re-appointment under item no.03 aforesaid pursuant to Regulation 36(3) of the Listing Regulations and Secretarial Standard - 2 on General Meetings ('SS-2'), issued by The Institute of Company Secretaries of India are annexed hereto.
4. The helpline number regarding any query/assistance for participation in the AGM through VC/OAVM is **Tel: 022-49186175, Tel: 1800-222-990**.
5. Pursuant to the provisions of the act, a member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote instead of himself and the proxy need not be a member of the company. Since this AGM is being held pursuant to the MCA circulars through VC/OAVM, the requirement of physical attendance of members has been dispensed with.

**Accordingly, the facility for the appointment of proxies by members will not be available for this AGM and hence, the proxy form, attendance slip, and route map of the AGM are not annexed to this notice.**

6. Members are requested to participate on a first come first serve basis, as participation through video conferencing is limited and will be closed on expiry of 15 minutes from the scheduled time of the AGM. However, the participation of members holding 2% or more is not restricted on a first come first serve basis. Members can log in and join 15 (fifteen) minutes prior to the scheduled time of the meeting and the window for joining shall be kept open till the expiry of 15 (fifteen) minutes after the scheduled time.
7. Institutional shareholders/corporate shareholders (i.e., other than individuals, HUFs, NRIs, etc.) are required to send a scanned copy (PDF/JPG format) of their respective Board or governing body Resolution, Authorization, etc., authorizing their representative to attend the AGM through VC/OAVM on their behalf and to vote through remote e-Voting. The said Resolution/Authorization shall be sent to the Scrutinizer by e-mail to [mishragamiassociates@gmail.com](mailto:mishragamiassociates@gmail.com) with a copy marked to [evoting@nsdl.co.in](mailto:evoting@nsdl.co.in) and [bhavik.trivedi@mum.tspl.in](mailto:bhavik.trivedi@mum.tspl.in). Institutional shareholders (i.e., other than individuals, HUFs, NRIs, etc.) can also upload their Board Resolution/Power of Attorney/Authority Letter, etc. by clicking on "Upload Board Resolution/Authority Letter", etc. displayed under the "e-Voting" tab in their login.
8. Members can raise questions during the meeting only if they have registered themselves as a speaker shareholder by emailing in advance at [bhavik.trivedi@mum.tspl.in](mailto:bhavik.trivedi@mum.tspl.in).  
However, it is requested to raise the queries precisely and in short at the time of meeting to enable to answer the same.
9. In the case of joint holders attending the AGM, only such joint holder, who is higher in the order of names, will be entitled to vote.
10. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Act.
11. The Members can join the AGM through VC/OAVM 30 minutes before and within 15 minutes after the scheduled time of the commencement of the AGM by following the procedure mentioned in the Notice. The members will be able to view the proceedings on National Securities Depository Limited's (NSDL) e-Voting website at [www.evoting.nsdl.com](http://www.evoting.nsdl.com). The facility of participation at the AGM through VC/OAVM will be made available to at-least 1,000 Members on a first come first served basis as per the MCA Circulars.

12. In terms of the MCA Circulars and the relevant SEBI Circulars, the Company is sending this AGM Notice along with the Integrated Annual Report for F.Y. 2023-2024 in electronic form only to those Members whose email IDs are registered with the Company/Depositories as on the **Benpose Date August 16, 2024**. The Company shall send the physical copy of the Integrated Annual Report for F.Y. 2023-2024 only to those Members who specifically request the same at [bhavik.trivedi@mum.ttspl.in](mailto:bhavik.trivedi@mum.ttspl.in) mentioning their Folio No/DP ID and Client ID. The Notice convening the AGM and the Annual Report for F.Y. 2023-2024 have been uploaded on the website of the Company at <https://ttspl.in/> and may also be accessed from the relevant section on the website of the National Stock Exchange of India Limited (NSE) at [www.nseindia.com](http://www.nseindia.com).

The AGM Notice is also available on the website of NSDL at [www.evoting.nsdl.com](http://www.evoting.nsdl.com).

13. **Record Date and Dividend:** The Record Date for the purpose of payment of dividend for the financial year ended March 31, 2024, is September 06, 2024. The dividend of Rs. **0.50 per equity share of Rs. 10 each, (0.05%)** if approved by the Members at the AGM, will be paid subject to deduction of tax at source ('TDS'), on or after 16<sup>th</sup> September, 2024, by way of electronic mode as under:

Since the entire shareholding of the company is in dematerialized form, dividend will be payable to all Beneficial Owners in respect of shares held in dematerialized form as per the data as may be made available by Depositories at the close of business hours on September 06, 2024.

14. Pursuant to the Finance Act, 2020, dividend income is taxable in the hands of the Members and the Company is required to deduct TDS from the dividend paid to the Members at rates prescribed in the Income-tax Act, 1961 ('IT Act'). In general, to enable compliance with TDS requirements, Members are requested to complete and/or update their Residential Status, Permanent Account Number ('PAN'), Category as per the IT Act with their DPs by September 15, 2024.
15. Updating of mandate for receiving dividend directly in bank account through Electronic Mode or any other means in a timely manner: Members are requested to intimate changes, if any, pertaining to their name, postal address, email address, telephone/mobile numbers, PAN, mandates, nomination, power of attorney, bank details, bank account number, MICR code, IFSC, etc. as under:

Members holding shares in electronic form may please note that their bank details as furnished by the respective DPs to the Company will be considered for remittance of dividend as per the applicable regulations of the DPs and the Company will not be able to accede to any direct request from such Members for change/addition/deletion in such bank details. Accordingly, Members holding shares in electronic form are requested to ensure that their Electronic Bank Mandate is updated with their respective DPs by September 15, 2024

16. To prevent fraudulent transactions, Members are advised to exercise due diligence and notify the Company of any change in address or demise of any Member as soon as possible. Members are also advised to not leave their Demat account(s) dormant for long. Periodic statement of holdings should be obtained from the concerned DP and holdings should be verified from time to time.
17. As per the provisions of Section 72 of the Act, the facility for making nominations is available to the Members in respect of the shares held by them. Members who have not yet registered their nomination, are requested to register the same by submitting Form No. SH-13. If a member desires to opt out or cancel the earlier nomination and record a fresh nomination, the Member may submit the same in form ISR-3 or form SH-14, as the case may be. Members are requested to submit the said form to their respective DPs in case the shares are held in electronic form, and to the RTA in case the shares are held in physical form. The said form can be downloaded from the RTAs website at <https://www.bigshareonline.com/>
18. Members who have not registered their e-mail addresses are requested to register the same with the Company's Registrars and Transfer Agents / Depository Participant(s) for sending future communication(s) in electronic form. The email addresses can be registered with the Depository Participant ("DP") in case the shares are held in electronic form and with the Registrar and Transfer Agent of the Company ("RTA") in case the shares are held in physical form.

Members are requested to note that dividends, if not encashed for a consecutive period of 7 years from the date of transfer to Unpaid Dividend Account of the Company, are liable to be transferred to the Investor Education and Protection Fund (IEPF). Further, the shares in respect of such unclaimed dividends are also liable to be transferred to the demat account of the IEPF Authority. In view of this, Members/Claimants are requested to claim their dividends lying in the unpaid dividend account of the Company within the stipulated timeline.

19. SEBI vide Circular dated July 31, 2023, read with Master Circular dated December 28, 2023, has established a common Online Dispute Resolution Portal ('ODR Portal') for resolution of disputes arising in the Indian Securities Market. Pursuant to above mentioned circulars, post exhausting the option to resolve their grievances with the RTA/ Company directly and through existing SCORES platform, the investors can initiate dispute resolution through the ODR Portal (<https://smartodr.in/login>) and the same can also be accessed through the Company's website at [www.ttspl.in](http://www.ttspl.in)

## **REPORT ON CORPORATE GOVERNANCE**

### **FINANCIAL YEAR 2023-2024**

#### **1. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE:**

Our Company's philosophy on good corporate governance envisages the attainment of the highest level of principles such as Accountability, Professionalism, transparency in dealings with our stakeholders, Emphasis on communication, and Transparent reporting that creates long term sustainable shareholder value.

We have complied with the requirements of the applicable regulations, including SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, in respect of corporate governance including the constitution of the Board and Committees thereof. The corporate governance framework is based on an effective independent Board, the Board's supervisory role from the executive management team, and the constitution of the Board Committees, as required under law.

#### **2. BOARD OF DIRECTORS:**

The Company's policy is to maintain an optimum combination of Executive and Non-Executive Directors, all of whom are eminent persons with considerable professional expertise and experience in business and industry, finance, management, and law. The strength of the Board of Directors as on March 31, 2024, was seven (07); Three (03) being Executive Directors, out of which one is Managing Director **and** Four (4) being Non-Executive Directors, out of which Three (03) are Independent Directors.

The constitution of Board is in compliance with the requirements of the Companies Act, 2013 and Securities Exchange and Board of India (Listing Obligation and Disclosure Requirements) Regulations, 2015.

The Board is satisfied that the current composition reflects an appropriate mix of knowledge, skills, experience, expertise, diversity, and independence. The Board provides leadership, strategic guidance, an objective and independent view to the Company's management while discharging its fiduciary responsibilities, thereby ensuring that the management adheres to high standards of ethics, transparency, and disclosure. The Company's business is conducted by its employees under the overall supervision of the Board.

None of the Directors are related to any other Directors on the Board. None of the Directors on the Board is a member of more than 10 (ten) Committees and Chairman of more than 5 (five) Committees, across Companies in which he/ she is a director. The necessary disclosures regarding committee positions have been made by all the Directors.

During the year under review, the Board of Directors met Four (4) times on; May 30, 2023; August 10, 2023; November 13, 2023; February 08, 2024. The necessary quorum was present for all the meetings.

#### **ROLE OF INDEPENDENT DIRECTORS:**

Independent directors play a key role in the decision-making process of the Board as they approve the overall strategy of the Company and oversee the performance of the management. The Independent Directors are committed to acting in the best interest of the Company and its stakeholders. The Independent Directors are professionals, with expertise and experience in general corporate management, legal, public policy, finance, banking, and other allied fields. This wide knowledge of their fields of expertise, as well as the boardroom practices, helps foster varied, unbiased, independent, and experienced perspectives. The Company benefits immensely from its inputs in achieving its strategic direction.

#### **A separate meeting of Independent Directors:**

In accordance with the provisions of Section 149(8) read with Schedule IV of the Act and Regulation 25(3) and (4) of the Listing Regulations and Secretarial Standards, a separate meeting of the Independent Directors of the Company was held on February 08, 2024. All Independent Directors were present at the meeting with no presence of Non-Independent Directors and Members of the Management for transacting the following agenda:

- i. Review the performance of Non-Independent Directors and the Board as a whole.
- ii. Review the performance of the Chairperson of the Company, taking into account the views of Executive Directors and Non-Executive Directors.
- iii. Assess the quality, quantity, and timeliness of the flow of information between the Company Management and the Board that is necessary for the Board to perform their duties effectively and reasonably.

The Company has received a declaration from the Independent Directors confirming that they meet the criteria of independence as prescribed under Section 149(6) and (7) of the Act read with Regulation 16(1)(b) of the Listing Regulations. In terms

of Regulation 25(8) of the Listing Regulations, the Independent Directors have confirmed that they are not aware of any circumstances or situations which exist or may be reasonably anticipated that could impair or impact their ability to discharge their duties. The Board based on the declarations received from the Independent Directors has verified the veracity of such disclosures.

In the opinion of the Board, all the Independent Directors fulfil the conditions specified in the Listing Regulations and they are independent of the management of the Company.

In accordance with the provisions of Section 150 of the Act read with the applicable Rules framed thereunder, the Independent Directors of the Company have registered themselves in the Independent Directors data bank maintained by the Indian Institute of Corporate Affairs (“IICA”). The Independent Directors, unless exempted, are required to pass an online proficiency self-assessment test conducted by IICA within one year from the date of their registration on the IICA databank.

### ECONOMIC OVERVIEW

#### Global Industry

The global logistics market size accounted for USD 7.98 trillion in 2022 and it is expected to be worth around USD 18.23 trillion by 2030 with a noteworthy CAGR of 10.7% from 2023 to 2030. One of the key factors positively influencing the market is the booming e-commerce industry, as well as the improving availability of high-speed network connectivity. The need for effective logistics services is rising as the e-commerce industry grows. Furthermore, the market is being driven by a shift in customer preference toward online purchases. Online retail networks provide convenient home delivery facilities, which aid in market expansion. Aside from that, manufacturers are aiming for green logistics solutions to diminish environmental impact as well as improve their business's green credentials.

Logistics is a part of supply chain in which the process of transportation of goods, services, and related information is done from the point of origin to the point of consumption. Nowadays, the logistics industry is experiencing a significant shift toward digitization and automation. Logistic companies are increasingly adopting technologies such as internet of things (IoT), Artificial Intelligence (AI), Machine learning, and robotics to streamline operations, improving efficiency and reduce cost. This includes warehouse automation, autonomous vehicles, predictive analysis, and others.

Waterways transportation is also called as inland waterways transportation and it refers to movement of goods and passenger through rivers, canals, lakes, and coastal waters. Water transport is generally cost effective for transporting large volume of goods over a long distance and it has high carrying capacity. Hence, the demand for water transportation is increasing. Such a factors are driving the growth of global logistics market in the forecast period.

E-commerce belongs to the buying and selling of goods over the internet. Shipping goods to customers is handled by third-party service providers. Logistics services are also used in the e-commerce sector to manage and oversee e-commerce businesses' supply chains, allowing these businesses to focus on marketing and other company operations. As a result of the numerous benefits that logistics provides the e-commerce business, the adoption of these services is increasing significantly, boosting market expansion.

## Annual Report F.Y. 2023-2024

---

Globalization is a new factor driving market growth, with many multinational corporations outsourcing logistics results. Furthermore, logistics enables organizations to separate different stages of a manufacturing process across multiple countries. It further reduces the total cost of manufacturing.

Dynamic market conditions and improvement in the global economy are the key factors driving globalization. Attributed to rise in globalization, various activities related to trade are witnessing increase. Therefore, it is becoming difficult for manufacturers or retailers to keep track of these activities in an efficient manner. This factor is expected to drive the logistics market share of logistics companies. Moreover, development of the overseas market is a significant factor that fuels the growth of the market. Logistics services are becoming extremely vital for price-sensitive customers who require a wider choice of high-quality products with timely delivery. Thus, increase in trading activities due to globalization fuels the growth of the logistics market.

Healthcare, manufacturing and trade & transportation segments have witnessed large-scale adoption of global logistics market. Increasing adoption of logistics in these end user industries are expected to rise with highest market share and are identified as one of the lucrative targets for investment. As compared to the other segments, these applications possess larger market size by value. The application of logistics has expanded its reach and it is more inclined towards the developing economies. The revenue generated is mostly coming out from the developing economies rather than the developed economies. The demand for various goods is expected to increase at an exponential rate, which would further increase the demand for logistics firms in the years to come.

Asia-Pacific holds the largest market share in the global logistics market in 2015. The growth of global logistics market in Asia-Pacific region is driven by burgeoning demand in China, and India. The second highest share is LAMEA followed by North America and Europe. The global logistics market is highly fragmented with the presence of large number of local players that occupy around 50% market share in the overall global logistics market.

### Indian Logistics Industry

The logistics industry plays a vital role in the dynamic economic landscape of India by enabling the efficient movement of goods and services throughout the country's large territory. As India strives to realise its ambitious economic goals, including achieving a GDP of US\$ 5.5 trillion by 2027, the transformation of its logistics sector emerges as a pressing imperative. Given its pivotal role in supporting various industries, from manufacturing to agriculture and e-commerce, the logistics sector faces a myriad of challenges, and offers a number of opportunities. The Indian economy, which ranks fifth in the world with a GDP of approximately US\$ 3.7 trillion in 2023, grew rapidly between 2015 and 2019, averaging more than 7% annually.

The Indian logistics sector is one of the largest in the world and presents a huge addressable opportunity. The sector is critical for the country's economic growth as it connects various elements of the economy and consists of transportation, warehousing and other supply chain solutions ranging from suppliers to end customers.

The Department of Commerce set up a logistics division in July 2017 to oversee the integrated development of the sector. Led by the Special Secretary to the Government of India, the division aims to enhance the sector by devising action plans for policy reforms and process enhancements, addressing challenges, and embracing technology.

The industry is characterised by dynamism, undergoing rapid evolution to meet escalating demands. Technological advancements, infrastructure enhancements and governmental initiatives, including GST implementation and the National Logistics Policy (NLP), are precipitating substantial transformations within the sector. Digitalisation, augmented connectivity, and the adoption of cutting-edge innovations such as Radio Frequency Identification (RFID) and Global Positioning System (GPS) are bolstering operational efficiency while mitigating costs. Furthermore, the surge in e-commerce activities and international trade is propelling demand for streamlined logistics solutions. Despite persistent challenges such as infrastructural deficits and regulatory intricacies, the industry stands poised for significant expansion, presenting domestic and international entities with opportunities to flourish within India's burgeoning market.

### Government Initiatives

India's logistics and supply chain industry is experiencing a major transformation, led by several government initiatives aimed at boosting the sector. Notably, implementing GST and recognising logistics as infrastructure status are two critical moves that have been instrumental in driving this change. Initiatives that have been implemented to streamline goods movement and reduce turnaround times are listed below.

**Dedicated freight corridors:** To facilitate the seamless transportation of goods and commodities across India, high-speed, large-capacity railway corridors – known as dedicated freight corridors – have been established. These corridors integrate state-of-the-art technology and improved infrastructure, promising enhanced efficiency, and effectiveness in logistics operations. As of January 2023, 1,724 kilometres of dedicated freight corridors have been completed. These corridors connect Delhi, Mumbai, Chennai, and Howrah, which are already part of the Indian Railways Network.

**Multi-modal logistics parks:** The development of multi-modal logistics parks is a strategic step towards providing comprehensive freight-handling facilities. Spread across at least 100 acres, these parks offer access to various modes of transportation, including road, rail, and air. They also provide advanced storage solutions such as mechanised warehouses, cold storage facilities, and essential services like customs clearance and quarantine zones. These parks aim to optimise logistics operations and enhance overall supply chain efficiency by lowering freight costs, warehouse expenses and vehicle congestion. Multi-modal logistics parks have been established at 35 important strategic sites, with a total investment of Rs. 50,000 crores. These parks facilitate smooth transportation of goods using various modes of transport.

**Parivahan portal:** To standardise processes and promote seamless information sharing across locations, the government has introduced the Parivahan portal. This digital platform encompasses ‘SARATHI’ for driving license processes and ‘VAHAN’ for vehicle registrations. Both functionalities are consolidated within a user-friendly mobile application, ‘mParivahan.’ This initiative streamlines administrative procedures and provides easy access to information related to registration cards and driver’s licenses, facilitating smoother logistics operations.

**Introduction of e-way bill:** Implementing the e-way bill system mandates using electronic documentation for truckloads valued above Rs. 50,000. This digital documentation eliminates the need for physical paperwork and state boundary check posts, simplifying inter-state vehicle movement. The e-way bill initiative enhances logistics efficiency and expedites overall supply chain movement by shortening turnaround time and bureaucratic hurdles.

**GatiShakti:** PM GatiShakti, launched by the Prime Minister in October 2021, aims to improve logistics efficiency, and reduce costs by coordinating planning among different agencies. This initiative emphasizes breaking down barriers between departments, and integrating infrastructure and logistics networks. PM GatiShakti seeks to minimise disruptions and enhance efficiency by focusing on multi-modal connectivity and timely project completion. Through a National Master Plan, it intends to create an integrated transportation and logistics network, fostering value addition and generating job opportunities. The Minister allocated a capital expenditure of Rs. 7.5 lakh crore (USD 90.26 billion) in 2022-23 by the central government.

**National Logistics Policy:** The Indian government released the National Logistics Policy 2022 (NLP). NLP aims to boost economic growth by making the logistics sector more seamless and integrated. It plans to create a single-window e-logistics market and make MSMEs more competitive. This would lower logistics costs as a percentage of GDP.

**Logistics Efficiency Enhancement Programme (LEEP):** LEEP is designed to improve freight transport efficiency. Associated cost, transportation time, and logistics practices like goods transferring and tracking through infrastructure technology and process interventions.

**Trade facilitation:** The logistics industry plays a pivotal role in facilitating domestic and international trade. Efficient logistics networks enable the smooth movement of goods across borders, fostering trade relationships and contributing to economic growth.

To enhance trade facilitation and improve trade for logistics, the following steps have been taken:

- An Export-Import (EXIM) Logistics Group has been created.
- The Ministry of Ports, Shipping and Waterways has developed a comprehensive plan for port connectivity. It aims to address infrastructure gaps at the first and last mile, ensuring smooth goods movement. Additionally, 60 projects by the Ministry of Road Transport and Highways (MORTH) and 47 by Indian Railways have been approved to strengthen port connectivity.
- The Logistics Data Bank app monitors EXIM cargo, enhancing predictability, transparency, and reliability. This lowers logistics costs and reduces waste in the supply chain.

### Health industry outlook

In the rapidly changing world of health care, collaborating with premium IT logistics companies, Logistics can improve the overall quality of health care delivery. We will help health care organizations to access the technology required for automating and streamlining their supply chain. Healthcare organizations will need to allocate additional resources to meet growing regulatory requirements and remain compliant. Extensive experience in health care logistics is required to stay on top of critical regulatory changes that make it difficult to comply with regulatory requirements. Healthcare supply chain employees must be prepared for the new health care challenges.

The health care supply chain must be agile and adaptable enough to deal with constant changes in regulatory compliance, product complexity, points of care, warehousing, and transportation. Third-party logistics providers can help health care organizations consolidate their warehousing operations to reduce or eliminate unnecessary expenses. They can assist health care organizations in developing an efficient supply chain, allowing them to save both time and money in the process. As a result, health care providers frequently demand high fill rates from their patients.

Healthcare providers are requesting lower prices for medical devices, and 3PLs can assist healthcare organizations in meeting these demands. Examples include health care companies with temperature-sensitive shipping requirements that benefit from the logistics provider's existing infrastructure, advanced technology, and streamlined processes, among other things.

In the health care industry, third-party logistics companies combine shipments from multiple shippers to transport freight at maximum capacity. A health care logistics provider is familiar with the industry's standard operating procedures and can help you improve the overall efficiency of your operations like:

- To secure additional capacity; a healthcare organization can use a 3PL partner's carrier network; the 3PL partner can also access a wide range of solutions and options.
- Healthcare products are packaged to protect patients and health care professionals from harm.
- In the long run, hiring a third-party logistics provider will help you improve your services, making the investment worthwhile.
- Healthcare inventory management is a critical component of the health care industry.
- Reverse logistics is necessary for health care products to be restocked, repaired, or recycled.

The shipping industry has become saturated due to the increased demand for final customer delivery and the demand for raw materials required to manufacture pharmaceutical products. The health care industry requires a specialized approach to logistics to ensure on-time fulfillment of sensitive medical products and equipment. This, in turn, improves customer service, material handling, inventory management and increases cost savings for the shipping partner.

### Indian Container Market

The India Container Market is expected to grow at a significant rate of around 2% during the forecast period. The Indian container market is growing at a substantial rate mainly owing to the several policy reforms in place bolstering the container trade against the global slowdown. Improvement in transshipment numbers at Indian ports, direct port delivery (DPD), direct port entry (DPE), increase in authorized economic operators (AEOs), port community systems (PCS), digitization and automation of cargo movement through port gates, etc. are some of the key areas of improvement notably aiding the market towards an upward trend. In addition, healthy competition among major and private ports is improving the container volume growth at each port year-over-year is creating opportunities in the Indian container market.

Based on the product, the container market is classified into 0 feet, 40 feet, and 45 feet. The 40 feet segment caters substantial share of the market. Factors such as increased durability and large space offered by 40 feet containers are contributing to their high adoption across various applications. In addition, India has emerged as the world's fastest-growing economy for the past five years owing to the rising demand for consumer goods and services.

Based on end-use, the container market is segmented into food & beverage, consumer goods, industrial goods, healthcare, and others. The food & beverages segment caters considerable share of the market. Perishable food items and beverages deteriorate quickly if exposed to humidity or extreme temperature. Reefer containers play a vital role in the transportation of perishable food items as they offer exceptionally large storage space for cooling while easy to transport and can be placed in many locations. As a result, the increasing trade of agriculture and processed food is expected to boost the demand for containers in the food & beverage segment over the coming years.

## About Total Transport Systems

Established in 1994, Total Transport Systems Ltd (TTSL) is a well-established Company in India's cargo market. Through a robust network of partners, the Company has made a strong foothold in the logistics industry in the country.

TTSL specializes in logistics business keeping a focus on our core business activities namely consolidation of Export cargoes, deconsolidation of import cargoes, full container loads and air freight from India to worldwide destinations. As a non-vessel Operating Common Carrier, the Company's consolidated shipping is rated among the top customers of almost all leading shipping lines operating in the region. This reputation has ensured the Company's competitive rates & space with major liners for consolidated shipments on a regular basis. The Company specializes in the business of Airfreight, LCL Forwarding for both exports and imports. TTSL has sizeable market share in India's LCL segment and the Company is one of the market leaders in cargo consolidation. In addition to such services, Total continues to focus on timely delivery, diversification of its service portfolio, sustained long-term relationships with its clients, and extending value-added services over and above simple logistics.

The Company is equipped with a Multi-Modal Transport Operator's License for servicing its customer's requirements. It also has a Federal Maritime Commission (FMC) license. These licenses help the Company scale new businesses and geographies. These efforts have enabled the Company to win long running contracts as well as garner accolades in the Industry as amongst the best groupage traffic in India. Moreover, the Company is well-positioned to leverage the changing trends in the logistics industry. It represents world's 5th largest consolidator's network named "I Cargo Alliance" with 166 offices in 89 countries

The Company has two wholly owned subsidiaries- CP World Logistics India Pvt Ltd and One World Logistics Pvt Ltd. Incorporated in 2010, One World Logistics offers services of last mile, rural mile and rural B2B delivery. The Company's robust business model along with its latest ERP and SaaS for technology back up gives an added advantage. It operates under the brand "**Abhilaya**" with a focus on last mile delivery especially for Amazon, Flipkart and FedEx with a target to work with other ecommerce players at PAN India level. It is an on-demand last-mile delivery solution provider offering tech-enabled delivery solutions for E-commerce, Restaurants, FMCG, Pharma and online & offline retailers.

The Company has entered into a Joint Venture agreement with Seedeer (Hong Kong) E- Commerce Company Limited to form a Joint venture entity called a Seedeer (India) E-commerce Private Limited to gain access to the world-wide global supply chain activity of Seedeer locally in India. All these services provided by the Total group help the Company to scale new heights of success. This is enabled by specialized skill sets, local insights and experience of its devoted management team.

Additionally I am pleased to announce that Company acquire a 25% equity stake by investing USD 66,750. This acquisition will be made by purchasing shares from one of the founding shareholders once the new company is established, rather than entering into a Joint Venture (JV) Agreement to incorporate a new entity. This acquisition targets a significant expansion of business operations in Africa, specifically in Ghana, focusing on Console and Full Container Load (FCL) shipments. The Proposed Investee Company anticipates handling 12 Console shipments monthly and 20 FCL shipments in its inaugural year, leveraging TTSL's expertise in FCL shipments to bolster its position in the African market and deliver exceptional services.

The Company's wide reach and superior logistics capabilities helps it provide end-to-end services. Such expertise and superior quality of service has led to increased confidence of its marquee clients.

## FINANCIAL OVERVIEW –

### OPPORTUNITY

Startups working on innovative ideas for logistics will go a long way in driving productivity and efficiency in the sector. However, it is the new thought process and technology that can make a huge difference. Of late, several startups are coming up with interesting ideas around AI optimisation tools or using APIs which the government is providing to integrate the Unified Logistics Interface Platform (ULIP) and bring ease of doing business in the sectors.

Multi-modal logistics is another opportunity area to make the Indian supply chain more efficient. Currently, road transportation contributes to 60–65% of the overall freight movement, rail is about 20–25%, and postal shipping is about 6%. So, this ratio is quite skewed. The faster the shift happens to multi-modal transport, the lower the logistics cost will be and the more seamless it will be with the right documentation and right information. The government is also pushing multi-modal transport to boost the manufacturing sector through the PM Gati Shakti programme.

The multi-modal transport will drive green logistics which is another area ripe with opportunities. Decarbonisation of the logistics sector will accelerate in the next five years. It will significantly reduce carbon emissions when goods move from one transport to another.

The rise of electric vehicles as the future of last-mile delivery is worth a mention here. The next few years will witness electric vehicles and CNG-LNG vehicles on the road while hydrogen-powered vehicles are also likely to gain momentum in the long run.

### THREATS

The foremost challenge in this space is the high cost of logistics which needs to be brought down for India to become competitive at the international level. The sector is also fragmented and unorganised. Lack of adequate standardisation and digitisation is another major hurdle. For example, different variants of trucks make loading and unloading difficult and time-consuming. Manual documentation adversely impacts productivity and efficiency.

### SEGMENT- WISE OR PRODUCT- WISE PERFORMANCE

The Company is engaged in the business of Consolidation/deconsolidation of cargo freight forwarding, logistics, warehousing and transportation along with last mile delivery business. The Company is dealing only in this single segment and hence segment wise performance is not applicable to the Company.

### RISKS AND CONCERNS

Like every business, the Company faces risks, both internal and external, in the undertaking of its day-to-day operations and in pursuit of its longer-term objectives. A detailed policy drawn up and dedicated risk workshops are conducted and key support functions wherein risks are identified, assessed, analyzed, and accepted / mitigated to an acceptable level within the risk appetite of the organization. The risk registers are also reviewed from time to time.

The Company faces the following Risks and Concerns:

### **Credit Risk**

To manage its credit exposure, TTSL has determined a credit policy with credit limit requests and approval procedures. Company does its own research of client's financial health and project prospects before bidding for a project. Timely and rigorous process is followed up with clients for payments as per schedule. The Company has suitably streamlined the process to develop a focused and aggressive receivables management system to ensure timely collections.

### **Interest Rate Risk**

The Company has judiciously managed the debt-equity ratio. It has been using a mix of loans and internal cash accruals. The Company has well managed the working capital to reduce the overall interest cost.

### **Competition Risk**

This risk arises from more players wanting a share in the same pie. Like in most other industries, opportunity brings with itself competition. We face different levels of competition in each segment, from domestic as well as multinational companies. The Company has created strong differentiators in project execution, quality and delivery which make it resilient to competition. Furthermore, the Company continues to invest in technology and its people to remain ahead of the curve. A strong, stable client base consisting of large and mid-sized corporations further helps to insulate the Company from this risk.

### **Liability Risk**

This risk refers to our liability arising from any damage to cargo, equipment, life and third parties which may adversely affect our business. The Company attempts to mitigate this risk through contractual obligations and insurance policies.

### **INTERNAL CONTROL SYSTEMS AND ADEQUACY –**

The Company implemented proper and adequate systems of internal control to ensure that all assets are safeguarded and protected against loss from any unauthorized use or disposition and all transactions are authorized, recorded and reported correctly. The Company also implemented effective systems for achieving highest level of efficiency in operations, to achieve optimum and effective utilization of resources, monitoring thereof and the compliance with provisions all laws including the Companies Act, 2013, Listing Agreement, directions issued by the Securities and Exchange Board of India, labour laws, tax laws etc. It also aimed at improvement in financial management, and investment policy. The System ensures appropriate information flow to facilitate effective monitoring. The internal audit system also ensures formation and implementation of corporate policies for financial reporting, accounting, information security, project appraisal, and corporate governance. A qualified and independent Audit Committee of the Board of Directors also reviews the internal control system and its impacts on improvement of overall performance of the Company.

### **HUMAN RESOURCES**

The Company's HR philosophy is to establish and build a high performing organization, where each individual is motivated to perform to the fullest capacity: to contribute to developing and achieving individual excellence and departmental objectives and continuously improve performance to realize the full potential of our personnel. As on March 31, 2024, Company is giving direct employment to 384 employees.

### **OUTLOOK**

The Indian logistics sector stands as one of the world's largest and plays a crucial role in driving economic growth. Following a 2% contraction in FY21, the market experienced a robust post-COVID recovery in FY22, witnessing a remarkable 14% growth and reaching a value of US\$435 billion. As per the projections from EY, a leading global consulting firm, the logistics market in India is poised to expand further, reaching US\$591 billion by FY27.

According to an EY report titled 'India@100', India's GDP is estimated to be around US\$ 26 trillion in market exchange rate terms by 2047-48. The transportation and logistics sector are expected to play a crucial role in supporting the country's ambitious growth targets. As India aims to reach this milestone over the next 25 years, the transportation and logistics industry would be essential for enabling this growth as logistics cost as a % of GDP accounts for currently. The considerable expenses in the logistics industry can be ascribed to the fact that most freight movement in India depends on road transportation, which constitutes 66% of cargo in ton-kilometres. Rail transportation comes next with a share of 31%, whereas shipping and air transportation comprise only 3% and 1%, respectively. However, the distribution of freight transportation varies across sectors.

Organised players are anticipated to exhibit a notable CAGR of approximately 32% between 2022 and 2027. Consequently, their market share is expected to reach 12-15% by FY27. This transformation is expected to be led by organised players' capacity to provide integrated services, leverage network- and scale-driven efficiencies, and make substantial investments in technology and engineering. These efforts are projected to promote their market competitiveness and capture a larger share of customer business.

### Independent Auditors Report

To the Members of Total Transport Systems Limited

#### Report on the Audit of the Standalone Financial Statements

##### Opinion

We have audited the accompanying standalone financial statements of Total Transport Systems Limited (“the Company”), which comprise the Balance sheet as at March 31 2024, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended (“the Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

##### Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the ‘Auditor’s Responsibilities for the Audit of the Standalone Financial Statements’ section of our report. We are independent of the Company in accordance with the ‘Code of Ethics’ issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

##### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended March 31, 2024. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor’s responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

**Auditors' Report on Standalone Financial Statements for the year ended March 31, 2024**

Key audit matters	How our audit addressed the key audit matter
<b>Carrying value of trade receivables</b> (as described in note 2(2.2)(e) of the standalone financial statements)	
<p>The gross balance of trade receivables as at March 31, 2024 amounted to Rs. 7,570.19 lakhs. The collectability of trade receivables is a key element of the Company's working capital management.</p> <p>The Company has a policy for evaluation of recoverability of receivables and recording of impairment loss which is applied at every period-end. In calculating the impairment loss, the Company has considered customer accounts as well as experience with collection trends and current economic and business conditions.</p> <p>The Company's disclosures are included in Note 9 to the standalone financial statements, which outlines the accounting policy for determining the allowance for impairment and details of the year-on-year movement in gross and net trade receivables.</p> <p>Due to significance of the trade receivables balance to the standalone financial statements as a whole and with the involvement of estimates and judgement, we have considered recoverability of trade receivables as key audit matter.</p>	<p>Our audit procedures, among other things included the following:</p> <ul style="list-style-type: none"> <li>• We evaluated the Company's policies, processes and financial controls relating to the monitoring of trade receivables and review of ageing of customers.</li> <li>• Circularized requests for balance confirmations on sample basis and examined responses.</li> <li>• Obtained evidence of receipts from customers.</li> <li>• Evaluated management's assessment of recoverability of the outstanding receivables and recoverability of the overdue / aged receivables and provision for doubtful debts through inquiry with management, and analysis of collection trends in respect of receivables.</li> <li>• Assessed and read the disclosures made by the Company in the standalone financial statements as per Ind AS and Schedule III of Companies Act, 2013.</li> </ul>
<b>Impairment of Investments and Recoverability of loans given to subsidiaries</b> (as described in note 2(2.2)(d) of the standalone financial statements)	
<p>The Company has investments in and loans receivable of Rs. 1,268.99 lakhs and Rs. 1,702.72 lakhs, respectively in its wholly owned subsidiaries as on March 31, 2024. The said investments are carried at cost less allowance for impairment.</p> <p>The Company analyses regularly for indicators of impairment of the said investments and loans by reference to the requirements under relevant Ind AS.</p> <p>We identified the annual impairment assessment as a key audit matter because carrying value of these investments and loans is significant, assessment process is complex and judgmental by nature.</p> <p>Refer note 2(2.2)(d) – significant accounting policy for impairment of investments and loans.</p>	<p>Our audit procedures included and were not limited to the following:</p> <ul style="list-style-type: none"> <li>• Tested the design and the operating effectiveness of internal controls over the impairment assessment process including assessment of valuation models used in assessment of impairment in the value of investments in subsidiaries.</li> <li>• Examined the Company's assessment for indicators of impairment of such investments and loans. In cases where such indicators existed, tested the estimates and assumption made by the Company of the recoverable amounts, and the allowance for impairment for these investments and loans.</li> <li>• Evaluated competence, capabilities and independence of the specialist engaged by the Company and analyzed the valuation reports issued by such specialist.</li> <li>• Involved our internal valuation expert to assist in evaluating valuations.</li> <li>• Tested the arithmetical accuracy of the computation of recoverable amounts of investments and loans.</li> <li>• Assessment of historical forecasting accuracy by comparing previously forecasted cash flows to actual.</li> <li>• Assessed and read the disclosures made by the Company in the standalone financial statements.</li> </ul>

## Annual Report F.Y. 2023-2024

## Auditors' Report on Standalone Financial Statements for the year ended March 31, 2024

Key audit matters	How our audit addressed the key audit matter
<b>Contingent Liabilities</b> (as described in note 33 of the standalone financial statements)	
<p>The Company has significant ongoing legal proceedings for matters relating to indirect tax and direct tax matters. Due to the magnitude and complexity involved in these matters, management's judgement regarding recognition and measurement of provisions for these tax proceedings is inherently uncertain and might change over time as the outcome of the legal cases are determined.</p> <p>We considered the above as key audit matter as the Company applies significant judgment in estimating the likelihood of the future outcome based on its own past assessments, judicial precedents and opinions of experts/legal counsels when considering whether, and how much, to provide or in determining the required disclosure for the potential exposure of these matters.</p>	<p>Our audit procedures included, among others the following:</p> <ul style="list-style-type: none"> <li>• Read the Company's accounting policies with respect to contingent liabilities and provisions and assessing its compliance with Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets".</li> <li>• Obtained understanding of the Company's process and controls to identify and monitor all litigations, including Company's process of assessment of litigations as 'probable', 'possible' and 'remote' and its internal reporting.</li> <li>• Held discussions with the management including the person responsible for legal and tax compliance to obtain an understanding of the matters involved and development in these matters compared to previous year. For significant tax matters, we assessed the management conclusion with the support of specialists.</li> <li>• For other tax matters, assessed management's conclusion basis the related documentation / correspondence and opinions from external legal experts (where applicable), as provided by the management.</li> <li>• Involved internal experts to assess the management's conclusion of litigations as 'probable', 'possible' or 'remote'.</li> <li>• Assessed the objectivity and competence of the internal expert and Company's external legal experts / law firms as referred above.</li> <li>• Reviewed the disclosures made by the Company in the standalone financial statements.</li> </ul>

**Information Other than the Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the draft director's report but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of Management for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

## Auditors' Report on Standalone Financial Statements for the year ended March 31, 2024

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Other Matter

The financial statements of the Company for the year ended March 31, 2023, included in these standalone financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those statements on May 30, 2023.

  - (g) With respect to the adequacy of the internal financial controls with reference to these standalone financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
  - (h) In our opinion, the managerial remuneration for the year ended March 31, 2024 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
  - (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 33 to the standalone financial statements;
    - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts to the standalone financial statements;
    - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company
    - iv.
      - a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
      - b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

**Auditors' Report on Standalone Financial Statements for the year ended March 31, 2024**

- c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. No dividend has been declared or paid during the year by the Company.
- vi. Based on our examination which included test checks, the Company has used accounting softwares for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that, as explained in Note 40 to the standalone financial statements:
  - a. In case of "E-Freight" software for maintaining its books of account, (i) audit trail feature is not enabled for "invoice reversal" and (ii) direct changes to data when using certain access rights.  
  
Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, where audit trail has been enabled.
  - b. In case of "Asset Expert" software used for maintaining its books of account as it relates to details of Property, plant and equipment records, audit trail feature is not enabled.
  - c. The Company has used "Spine" software, which is operated by a third-party software service provider, for maintaining its books of account and in the absence of Service Organisation Controls report we are unable to comment on whether audit trail feature of the said software was enabled and operated throughout the year for all relevant transactions recorded in the software or whether there were any instances of the audit trail feature being tampered with.

**Auditors' Report on Standalone Financial Statements for the year ended March 31, 2024****ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF TOTAL TRANSPORT SYSTEMS LIMITED****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to standalone financial statements of Total Transport Systems Limited ("the Company") as of March 31, 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone financial statements.

**Meaning of Internal Financial Controls With Reference to these Standalone Financial Statements**

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls With Reference to Standalone Financial Statements**

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Auditors' Report on Standalone Financial Statements for the year ended March 31, 2024**

**Opinion**

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024****NOTE 1: CORPORATE INFORMATION**

The Standalone Financial Statements comprises financial statements of Total Transport Systems Limited (collectively, the group) (CIN: L63090MH1995PLC091063) for the year ended 31 March 2024. The Company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The Company is listed on National Stock Exchange of India Limited having its Registered office at 7th Floor, T-Square, Opposite Chandivali Petrol Pump, Saki Vihar Road, Andheri (E), Mumbai- 400072. The Company is in the business of consolidation/deconsolidation of cargo, freight forwarding, logistics, warehousing and transportation.

The standalone financial statements were approved for issue in accordance with a resolution of the directors on May 27, 2024.

**NOTE 2: MATERIAL ACCOUNTING POLICIES****2.1 Statement of Compliance and Basis of Preparation:**

The Standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Standalone Financial Statements.

The Standalone financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments). The Standalone financial statements are presented in INR and all values are rounded to the nearest lacs (INR 00,000), except when otherwise indicated.

**2.2 Summary of Material Accounting Policies:****a) Current versus non-current classification:**

The Company presents assets and liabilities in the balance sheet based on current / non-current classification. An asset is treated as current when it is:

- expected to be realized or intended to sold or consumed in normal operating cycle or twelve months after reporting period,
- held primarily for the purpose of trading or
- cash or cash equivalent unless restricted from being exchanged or used to settle liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is treated as current when it is:

- expected to be settled in normal operating cycle or within twelve months after reporting period,
- it is held primarily for the purpose of trading or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

**b) Foreign Currencies:**

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian Rupees (INR), which is the Company's functional and presentation currency.

Transactions in foreign currencies are initially recorded at their respective functional currency (i.e. Indian rupee) spot rates at the date the transaction first qualifies for recognition.

**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024**

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Exchange differences arising on translation / settlement of foreign currency monetary items are recognized as income or expenses in the period in which they arise.

**c) Fair Value Measurement:**

The Company measures financial instruments, such as, investments at fair value at each balance sheet

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

External valuers are involved for valuation of significant assets, such as properties and unquoted financial assets, and significant liabilities, such as contingent consideration. Involvement of external valuers is decided upon annually by the Board after discussion with and approval by the Company's Audit Committee. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. Valuers are normally rotated every three years. The Board decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

**d) Financial Instruments****Financial Assets**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For

## NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Company reclassifies debt investments when and only when its business model for managing those assets changes.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

### Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

**Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

**Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized under other income. Interest income from these financial assets is included in other income using the effective interest rate method.

**Fair value through profit or loss (FVTPL):** Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognized in profit or loss and presented in the statement of profit and loss under other income in the period in which it arises. Interest or dividend income, if any from these financial assets is separately included in other income.

**Impairment of Financial Assets:** The Company assesses on a forward-looking basis the impairment allowance associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

**Equity Investments (in subsidiaries and associates):** Investments in subsidiaries and associates are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries and associates, the difference between net disposal proceeds and the carrying amounts are recognized in the statement of profit and loss.

### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's Standalone balance sheet) when the rights to receive cash flows from the asset have expired, or the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

### Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024**

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortized cost (loans and borrowings)

**Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

**Financial liabilities at amortised cost (Loans and borrowings)**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss. This category generally applies to borrowings. For more information refer Note 15(a).

**Derecognition**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

**Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the Standalone balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

**Revenue from operations:**

Revenue from contracts with customers is recognised when the performance of service is completed for the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those services. The Company has generally concluded that it is the principal in its revenue arrangements with customers.

Revenue from sale of services is recognized at the point in time when performance of service is completed for the customer, generally at the time of departure of vessel.

**Interest Income**

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate ("EIR"), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

## NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

### **Dividend Income**

Dividend Income is recognized when the right to receive payment is established.

### **Other Income**

Profit / loss on sale of investments is recognized at the time of such sale / redemption and is computed based on weighted average cost. Income and expense on account of changes in fair value is recognized based on the fair value of the investments as on the balance sheet date.

### **Contract balances**

#### **Trade receivables**

A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

#### **Impairment of financial assets**

The Company measures impairment loss allowance associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Company has a policy for evaluation of recoverability of receivables and recording of impairment loss which is applied at every period-end. In calculating the impairment loss, the Company considers customer accounts as well as experience with collection trends and current economic and business conditions.

Impairment loss allowance (or reversal) is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'Other expenses' in the P&L.

#### **Contract liabilities**

A contract liability is recognised if a payment is received, or a payment is due (whichever is earlier) from a customer before the Company transfers the related services. Contract liabilities are recognised as revenue when the Company performs under the contract (i.e. transfers control of the related services to the customer).

### **f) Taxes:**

#### **Current Income Tax**

Tax expense comprise current tax expenses and deferred tax.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

#### **Deferred Tax**

Deferred tax is provided using liability approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;

**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024**

- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside statement of profit and loss is recognized outside statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI (Other Comprehensive Income) or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

**g) Property, plant and equipment:**

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises the purchase price and any cost attributable to bringing the asset to its working condition for its intended use. Capital work in progress is stated at cost.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in statement of profit and loss as incurred.

**Depreciation**

Depreciation is calculated on a reducing balance basis over the estimated useful lives of the assets as follows:

<b>Category</b>	<b>Useful lives (in years)</b>
Building	60
Furniture and Fixtures	10
Office Equipment	5
Vehicle - Commercial	6
Vehicle - Others	8
Computer	3

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

**h) Intangible Assets:**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024**

Intangible assets are with finite life of 3 years and are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

**i) Borrowing Costs:**

Borrowing costs includes interest and amortization of ancillary cost over the period of loans which are incurred in connection with arrangements of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

**j) Leases:**

The Company assesses at contract inception whether a contract is or contains a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

**Company as a lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**(i) Right-of-use asset**

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful life of the assets for lease hold premises is between 0-5 years.

**(ii) Lease Liabilities:**

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

**(iii) Short-term leases and leases of low-value assets**

The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024****k) Provisions and Contingent Liabilities:**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

**Contingent Liabilities:**

Contingent liability is:

- (a) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or
- (b) a present obligation that arises from past events but is not recognized because;
  - it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or
  - the amount of the obligation cannot be measured with sufficient reliability.

The Company does not recognize a contingent liability but discloses the same as per the requirements of Ind AS 37.

**l) Retirement and other employee benefits:****Defined Contribution Plan**

Retirement benefit in the form of provident fund and ESIC are defined contribution schemes. The Company has no obligation, other than the contribution payable to the provident fund and ESIC. The Company recognizes contribution made under these schemes as an expense, when an employee renders the related service. If the contribution payable to the schemes for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

**Defined Benefit Plan**

The Company operates a defined benefit gratuity plan in India. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability, are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs.

**m) Cash and cash equivalents:**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the Standalone statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

## NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

### n) **Cash Flow statement:**

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of noncash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated in the Cash flow statement.

### o) **Earnings per share (EPS):**

Basic EPS amount is calculated by dividing the net profit for the year attributable to equity holders by the weighted average number of equities shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit of the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

### p) **Rounding of amounts**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakh as per the requirement of Schedule III, unless otherwise stated.

## 2.3 **Changes in accounting policies and disclosures**

### **New and amended standards**

Ministry of Corporate Affairs (“MCA”) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

#### (i) **Definition of Accounting Estimates - Amendments to Ind AS 8**

The amendments clarify the distinction between changes in accounting estimates, changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendments had no impact on the Company’s financial statements.

#### (ii) **Disclosure of Accounting Policies - Amendments to Ind AS 1**

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their ‘significant’ accounting policies with a requirement to disclose their ‘material’ accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Company’s disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Company’s financial statements.

#### (iii) **Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12**

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases.

The Company previously recognised for deferred tax on leases on a net basis. As a result of these amendments, the Company has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. Since, these balances qualify for offset as per the requirements of paragraph 74 of Ind AS 12, there is no impact in the balance sheet. There was also no impact on the opening retained earnings as at 1 April 2022.

## 2.4 **Amendments not yet effective:**

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

**Notes:**

The Company is contesting the demands and the management, including its tax/legal advisors, believe that its position will likely be upheld in the appellate process. No tax expense has been accrued in the financial statements for the tax demand raised. Cash outflows for the above are determinable only on receipt of judgements pending at various forums/authorities.

# The Company's income was assessed by the income tax department for the AY 2017-18 and a liability of Rs. 53.23 Lakhs was demanded. The Company has filed an appeal against the assessment order with the Income Tax Commissioner (Appeals) within the stipulated time. During the year the company was due to receive a refund from the Income Tax Department which was adjusted against the demand order. This adjustment forms part of balances receivable from the government. The Company has reviewed the demand and does not expect an unfavourable outcome.

\* The Company has received Show Cause Notices in respect of certain service tax matters amounting to Rs. 1175.11 lakhs against which it has filed an appeal with the Customs, Excise & Service Tax Appellate Tribunal (CESTAT) after paying deposit of Rs. 47.57 Lakhs. The Company has evaluated the legal position and believes that it has a strong case in this matter and no provision is required.

**Note 34: Fair Value Measurements**

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company has established the following fair value hierarchy that categorises the values into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

Level 1: This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on Company specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The following methods and assumptions were used to estimate the fair values:

- The Company has not disclosed the fair values of financial instruments such as cash and cash equivalents, bank balances, other than cash and cash equivalents, trade receivables, other financial assets (except derivatives), trade payables and other financial liabilities (except derivatives) because their carrying amounts are a reasonable approximation of fair value. Further, for financial assets, the Company has taken into consideration impairment allowances and adjusted the carrying values where applicable.
- The fair values of the quoted investments/units of mutual fund schemes are based on market price/ net asset value at the reporting date.
- The fair values for loans given are calculated based on discounted cash flows using current lending rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments are not materially different from their carrying values.
- Fair values of the Company's interest-bearing borrowings are determined by using discounted cash flow method using the current borrowing rates. Fair value of such instruments are not materially different from their carrying values. The own non-performance risk as at March 31, 2023 was assessed to be insignificant.

The carrying value and fair value of financial instruments by categories including the quantitative disclosures of fair value measurement hierarchy as at March 31, 2024 is as follows:

**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024  
(Amounts in INR Lakhs, unless otherwise stated)**

The management assessed that cash and cash equivalents, trade receivables, trade payable, short term borrowings, bank overdrafts and other current liabilities approximate their carrying amounts largely due to the short term maturities of these instruments and are thus measured at amortized cost.

**Note 35: Financial Risk Management Objectives & Policies:-**

The Company's principal financial liabilities, comprises of loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company also holds FVTPL investments.

It has an integrated financial risk management system which proactively identifies monitors and takes precautionary and mitigating measures in respect of various identified risks.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks, which evaluates and exercises independent control over the entire process of financial risks. All the derivative activities for risk management purposes are carried out by specialist teams that have appropriate skills, experience and supervision. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

<b>Risk</b>	<b>Exposure arising from</b>	<b>Measurement</b>	<b>Management</b>
Market Risk- Interest rate risk	Borrowings	Sensitivity Analysis	Interest Rate Swaps
	Term Loans		
Market Risk-Foreign Exchange	Recognised financial assets and liabilities not denominated in INR	Cash Flow Analysis	Foreign exchange options/forward contracts
		Sensitivity Analysis	
Credit Risk	Cash and Cash equivalents, loans given, trade receivables and investments	Ageing Analysis	Diversification of credit limits and letters of credit and bank guarantees
		Credit Analysis	
Liquidity Risk	Borrowing ,trade payables and other financial liabilities	Cash Flow forecasts	Availability of credit limits and borrowing facilities

**Market Risk**

Market Risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market price. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity risk. Financial instruments affected by market risk include loans and borrowings , deposits, FVTPL investments and derivative financial instruments. Market risk is attributable to all market risk sensitive financial instruments.

The finance department undertakes management of cash resources, hedging strategies for foreign currency exposures, borrowing mechanism and ensuring compliance with market risk limits.

**Interest Risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

The Company is not very significantly exposed to interest rate risk except the variations in RBI Repo rate or Bank's MCLR rates as most of the borrowings are linked to these. 1% changes in interest rate will increase the borrowing cost by Rs 27.58 lakhs.

The Company does not have significant investment in Bank Deposits and hence not significantly exposed to Interest rate sensitivity.

1% changes in interest rate will decrease the other income by ₹ 15.68 lakhs.

**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024  
(Amounts in INR Lakhs, unless otherwise stated)****Note 35: Financial Risk Management Objectives & Policies:-****Foreign currency Risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities and the Company's net investments in foreign subsidiaries.

The Company has no borrowings in foreign currency as on March 31, 2024 (March 31, 2023: ₹ Nil) and hence no foreign currency risk.

**Unhedged foreign currency exposure as at the reporting date expressed in INR are as follows :**

As at balance sheet date, the Company's net foreign currency exposure (receivable) that is not hedged is Rs. 1,816.46 lakhs (March 31, 2023: Rs. 1,155.95 lakhs).

**Foreign currency sensitivity**

For the year ended 31 March 2024 and 31 March 2023, every 5% depreciation / appreciation in the exchange rate between the Indian rupee and U.S. dollar, would have affected the Company's incremental operating margins by approximately amounts as shown below. The Company's exposure to foreign currency changes for all other currencies is not material.

Particulars	March 31, 2024	March 31, 2023
	USD	USD
Impact of change in USD	1.09	0.14

**Equity Price Risk**

The Company's listed and non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis.

In order to manage its price risk arising from investments in mutual funds, exchange traded funds and investments in equity instruments, the Company diversifies its portfolio.

1% increase or decrease in quoted market rates will have the following impact on profit before tax:

Particulars	March 31, 2024	March 31, 2023
Sovereign Gold Bond	0.10	0.09
Mutual funds	3.39	1.75
Equity shares	2.64	0.78

**Credit risk**

Credit risk is the risk that the counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivable) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Company only deals with parties which has good credit rating/worthiness given by external rating agencies or based on Company's internal assessment.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised as income in the statement of profit and loss.

**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024  
(Amounts in INR Lakhs, unless otherwise stated)**
**Note 35: Financial Risk Management Objectives & Policies:-**
**Cash and cash equivalents and deposits:**

Balances and deposits with banks are subject to low credit risks due to good credit ratings assigned to the banks.

**Loans:**

The Company has given loans to certain unrelated parties. The Company has made provisions in case where there is risk of loan recovery.

The Company has given loans to certain related parties. However, there is no counter party risk. (refer note 7)

**Trade and other receivables:**

The Company measures the impairment allowance of trade receivables and loans from individual customers based on historical trend, industry practices and business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends.

The ageing analysis of the receivables (gross of provisions) has been considered from the date the invoices falls due:

Period	Upto 60 days	61 to 120 days	More than 120 days	Total

## Annual Report F.Y. 2023-2024

**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024  
(Amounts in INR Lakhs, unless otherwise stated)****Capital Management**

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company aims to manage its capital efficiently so as to safeguard its ability to continue as a going concern and to optimise returns to our shareholders. The capital structure of the Company is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. We consider the amount of capital in proportion to risk and manage the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Company will take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

**INDEPENDENT AUDITOR'S REPORT**

To the Members of Total Transport Systems Limited

**Report on the Audit of the Consolidated Financial Statements**
**Opinion**

We have audited the accompanying consolidated financial statements of Total Transport Systems Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associate comprising of the consolidated Balance sheet as at March 31 2024, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries and associate, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associate as at March 31, 2024, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

**Basis for Opinion**

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group and associate, in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2024. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

<b>Key audit matters</b>	<b>How our audit addressed the key audit matter</b>
<p><b>Carrying value of trade receivables</b> (as described in note 2 and 9 of the consolidated financial statements)</p> <p>The gross balance of trade receivables as at March 31, 2024 amounted to Rs. 8,567.80 lakhs. The collectability of trade receivables is a key element of the Holding Company's working capital management.</p> <p>The Holding Company has a policy for evaluation of recoverability of receivables and recording of impairment loss which is applied at every period-end. In calculating the impairment loss, the Holding Company has considered customer accounts as well as experience with collection trends and current economic and business conditions.</p> <p>The Group's disclosures are included in Note 2 and 9 to the consolidated financial statements, which outlines the accounting policy for determining the allowance for impairment and details of the year-on-year movement in gross and net trade receivables.</p> <p>Due to significance of the trade receivables balance to the consolidated financial statements as a whole and with the involvement of estimates and judgement, we have considered recoverability of trade receivables as key audit matter.</p>	<p>Our audit procedures, among others, included the following:</p> <ul style="list-style-type: none"> <li>• We evaluated the Group's policies, processes and financial controls relating to the monitoring of trade receivables and review of ageing of customers.</li> <li>• Circularized requests for balance confirmations on sample basis and examined responses.</li> <li>• Obtained evidence of receipts from customers.</li> <li>• Evaluated management's assessment of recoverability of the outstanding receivables and recoverability of the overdue / aged receivables and provision for doubtful debts through inquiry with management, and analysis of collection trends in respect of receivables.</li> <li>• Assessed and read the disclosures made by the Company in the consolidated financial statements as per Ind AS and Schedule III of Companies Act, 2013.</li> </ul>

<b>Contingent Liabilities</b> <i>(as described in note 36 of the consolidated financial statements)</i>	
<p>The Holding Company has significant ongoing legal proceedings for matters relating to indirect tax and direct tax matters.</p> <p>Due to the magnitude and complexity involved in these matters, management's judgement regarding recognition and measurement of provisions for these tax proceedings is inherently uncertain and might change over time as the outcome of the legal cases are determined.</p> <p>We considered the above as key audit matter as the Group applies significant judgment in estimating the likelihood of the future outcome based on its own past assessments, judicial precedents and opinions of experts/legal counsels when considering whether, and how much, to provide or in determining the required disclosure for the potential exposure of these matters.</p>	<p>Our audit procedures, among others, included the following:</p> <ul style="list-style-type: none"> <li>• Read the Holding Company's accounting policies with respect to contingent liabilities and provisions and assessing its compliance with Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets".</li> <li>• Obtained understanding of the Holding Company's process and controls to identify and monitor all litigations, including Holding Company's process of assessment of litigations as 'probable', 'possible' and 'remote' and its internal reporting.</li> <li>• Held discussions with the management including the person responsible for legal and compliance to obtain an understanding of the matters involved and development in these matters compared to previous year. For significant indirect tax matters, we assessed the management conclusion with the support of specialists.</li> <li>• For other tax matters, assessed management conclusion basis the related documentation / correspondence and opinions from external legal experts (where applicable), as provided by the management.</li> <li>• Involved internal experts to assess the management's conclusion of litigations as 'probable', 'possible' or 'remote'.</li> <li>• Assessed the objectivity and competence of the external legal experts / law firms as referred above.</li> <li>• Reviewed the disclosures made by the Holding Company in the consolidated financial statements.</li> </ul>

**Information Other than the Financial Statements and Auditor's Report Thereon**

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the draft director's report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of Management for the Consolidated Financial Statements**

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its associate in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

## **Auditors' Report on Consolidated Financial Statements for the year ended March 31, 2024**

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of their respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its associate are also responsible for overseeing the financial reporting process of their respective companies.

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## Annual Report F.Y. 2023-2024

### Auditors' Report on Consolidated Financial Statements for the year ended March 31, 2024

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended March 31, 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Other Matter

- (a) We did not audit the financial statements and other financial information, in respect of 4 subsidiaries, whose financial statements include total assets of Rs. 2,648 lakhs as at March 31, 2024, and total revenues of Rs. 9,487 lakhs and net cash outflows of Rs. 93 lakhs for the year ended on that date. These financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. The consolidated financial statements also include the Group's share of net loss of Rs. 8 lakhs for the year ended March 31, 2024, as considered in the consolidated financial statements, in respect of an associate, whose financial statements, other financial information have been audited by other auditors and whose reports have been furnished to us by the Management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associate, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associate, is based solely on the reports of such other auditors.
- (b) The consolidated financial statements of the Company for the year ended March 31, 2023, included in these consolidated financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those statements on May 30, 2023.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

#### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of the subsidiary companies, associate company, incorporated in India, as noted in the 'Other Matter' paragraph we give in the "Annexure 1" a statement on the matters specified in paragraph 3(xxi) of the Order.

**Auditors' Report on Consolidated Financial Statements for the year ended March 31, 2024****ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF TOTAL TRANSPORT SYSTEMS LIMITED****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated financial statements of Total Transport Systems Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2024, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associates, which are companies incorporated in India, as of that date.

**Management's Responsibility for Internal Financial Controls**

The respective Board of Directors of the companies included in the Group and its associate, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both, issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

**Meaning of Internal Financial Controls With Reference to Consolidated Financial Statements**

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Auditors' Report on Consolidated Financial Statements for the year ended March 31, 2024****Inherent Limitations of Internal Financial Controls With Reference to Consolidated Financial Statements**

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Group, and its associate, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

**Other Matters**

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company, in so far as it relates to these 3 subsidiaries and 1 associate, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries and associate incorporated in India.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024**
**NOTE 1: CORPORATE INFORMATION**

TOTAL TRANSPORT SYSTEMS LIMITED (CIN: L63090MH1995PLC091063) is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The Company is listed on National Stock Exchange of India Limited having its Registered office at 7th Floor, T-Square, Opposite Chandivali Petrol Pump, Saki Vihar Road, Andheri (E), Mumbai- 400072.

The consolidated financial statements comprise the financial statements of Total Transport Systems Limited ('the Holding Company' or 'the Company') and its subsidiaries (collectively, 'the group') and its associate.

The Group is in the business of consolidation/deconsolidation of cargo, freight forwarding, logistics, warehousing and transportation.

**NOTE 2: MATERIAL ACCOUNTING POLICIES**
**2.1 Statement of Compliance and Basis of Preparation:**

The Consolidated financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Consolidated Financial Statements.

The Consolidated financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)

In addition, the carrying values of recognised assets and liabilities designated as hedged items in fair value hedges that would otherwise be carried at amortised cost are adjusted to record changes in the fair values attributable to the risks that are being hedged in effective hedge relationships. The Consolidated financial statements are presented in INR and all values are rounded to the nearest lacs (INR 00,000), except when otherwise indicated.

The Company has prepared the financial statements on the basis that it will continue to operate as a going concern.

The Consolidated financial statements provide comparative information in respect of the previous period.

**2.1 (a) Basis of consolidation:**

The Consolidated Financial Statements comprise the financial statements of the holding Company and its subsidiaries as at 31<sup>st</sup> March, 2024. The Consolidated Financial Statements also includes the Group's share of net assets of the subsidiary and the Group's share of profits.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has all of the below:

- a) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- b) Exposure, or rights, to variable returns from its involvement with the investee, and
- c) The ability to use its power over the investee to affect its returns

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the holding Company, i.e., year ended on 31 March.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024**

Consolidation procedure:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Eliminate in full intra group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 'Income Taxes' applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the holding Company of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any noncontrolling interests
- Derecognizes the cumulative translation differences recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities

**2.2 Summary of Material Accounting Policies:****a) Business Combination and goodwill**

The Company accounts for its business combinations under acquisition method of accounting. Acquisition related costs are recognized in the statement of profit and loss as incurred. The acquirer's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognized at their fair values at the acquisition date.

Purchase consideration paid in excess of the fair value of net assets acquired is recognized as goodwill. Where the fair value of identifiable assets and liabilities exceed the cost of acquisition, after reassessing the fair values of the net assets and contingent liabilities, the excess is recognized as capital reserve.

The interest of non-controlling shareholders is initially measured either at fair value or at the noncontrolling interests' proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity of subsidiaries.

Business combinations arising from transfers of interests in entities that are under the common control are accounted at historical cost. The difference between any consideration given and the aggregate historical carrying amount of assets and liabilities of the required entity are recorded in Goodwill or Capital Reserve as the case maybe.

**b) Investment in associates and joint venture**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024**

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.

The Group's investments in its associate and joint venture are accounted for using the equity method. Under the equity method, the investment in an associate or a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

If an entity's share of losses of an associate or a joint venture equal or exceeds its interest in the associate or joint venture (which includes any long term interest that, in substance, form part of the Group's net investment in the associate or joint venture), the entity discontinues recognizing its share of further losses. Additional losses are recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the entity resumes recognizing its share of those profits only after its share of the profits equals the share of losses not recognized.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the statement of profit and loss.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognize an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognizes the loss as 'Share of profit of an associate and a joint venture' in the statement of profit or loss.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

### **c) Foreign Currencies:**

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian Rupees (INR), which is the Company's functional and presentation currency.

Transactions in foreign currencies are initially recorded at their respective functional currency (i.e. Indian rupee) spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Exchange differences arising on translation / settlement of foreign currency monetary items are recognized as income or expenses in the period in which they arise.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024****d) Fair Value Measurement:**

The Company measures financial instruments, such as, investments at fair value at each balance sheet

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

External valuers are involved for valuation of significant assets, such as properties and unquoted financial assets, and significant liabilities, such as contingent consideration. Involvement of external valuers is decided upon annually by the Board after discussion with and approval by the Company's Audit Committee. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. Valuers are normally rotated every three years. The Board decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

**e) Investment and other Financial Asset:**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Company reclassifies debt investments when and only when its business model for managing those assets changes.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

### Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

**Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

**Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized under other income. Interest income from these financial assets is included in other income using the effective interest rate method.

**Fair value through profit or loss (FVPL):** Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognized in profit or loss and presented in the statement of profit and loss under other income in the period in which it arises. Interest or dividend income, if any from these financial assets is separately included in other income.

**Impairment of Financial Assets:** The Company assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

**Equity investments (other than investments in subsidiaries and associates):** The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments continue to be recognized in profit or loss as other income when the Company's right to receive payments is established. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Changes in the fair value of financial assets at fair value through profit or loss are recognized in other income in the statement of profit and loss.

**Equity Investments (in subsidiaries and associates):** Investments in subsidiaries and associates are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries and associates, the difference between net disposal proceeds and the carrying amounts are recognized in the statement of profit and loss.

### f) Current versus non-current classification:

The Company presents assets and liabilities in the balance sheet based on current / non-current classification. An asset is treated as current when it is:

- expected to be realized or intended to sold or consumed in normal operating cycle or twelve months after reporting period,
- held primarily for the purpose of trading or
- cash or cash equivalent unless restricted from being exchanged or used to settle liability for at least twelve months after the reporting period

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024**

All other assets are classified as non-current.

A liability is treated as current when it is:

- expected to be settled in normal operating cycle or within twelve months after reporting period,
- it is held primarily for the purpose of trading or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

**g) Revenue from contract with customers:**

Revenue from contracts with customers is recognised when the performance of services is completed for the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for the performance of services. The Company has generally concluded that it is the principal in its revenue arrangements with the customers.

**Interest Income**

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate ("EIR"), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

**Dividend Income**

Dividend Income is recognized when the right to receive payment is established.

**Other Income**

Profit / loss on sale of investments is recognized at the time of such sale / redemption and is computed based on weighted average cost. Income and expense on account of changes in fair value is recognized based on the fair value of the investments as on the balance sheet date.

**Contract balances****Trade receivables**

A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

**Contract liabilities**

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Company transfers the related services. Contract liabilities are recognised as revenue when the Company performs under the contract (i.e. transfers control of the related services to the customer).

**h) Taxes:****Current Income Tax**

Tax expense comprise current tax expenses and deferred tax.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

### **Deferred Tax**

Deferred tax is provided using liability approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Company relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports, which, among other things, reflect the potential impact of climate-related development on the business, such as increased cost of production as a result of measures to reduce carbon emission.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside statement of profit and loss is recognized outside statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI (Other Comprehensive Income) or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

### **i) Property, plant and equipment:**

Land is carried at historical cost. Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises the purchase price and any cost attributable to bringing the asset to its working condition for its intended use. Borrowing costs relating to acquisition of Property, Plant and Equipments which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use. Capital work in progress is stated at cost.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in statement of profit and loss as incurred.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024****Depreciation**

Depreciation is calculated on a reducing balance basis over the estimated useful lives of the assets as follows:

<b>Category</b>	<b>Useful lives (in years)</b>
Building	60
Furniture and Fixtures	10
Office Equipment	5
Vehicle - Commercial	6
Vehicle - Others	8
Computer	3

The management believes that these estimated useful lives are realistic and reflect a fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

**j) Intangible Assets:**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Intangible assets are with finite life of 3 years and are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

**k) Borrowing Costs:**

Borrowing costs includes interest and amortization of ancillary cost over the period of loans which are incurred in connection with arrangements of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

**l) Leases:**

The Company assesses at contract inception whether a contract is or contains a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

**Company as a lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024**
**(i) Right-of-use asset**

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful life of the assets for lease hold premises is between 0-5 years.

**(ii) Lease Liabilities:**

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

**(iii) Short-term leases and leases of low-value assets**

The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term

**m) Provisions and Contingent Liabilities:**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

**Contingent Liabilities:**

Contingent liability is:

- (a) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or
- (b) a present obligation that arises from past events but is not recognized because:
  - it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or
  - the amount of the obligation cannot be measured with sufficient reliability.

The Company does not recognize a contingent liability but discloses the same as per the requirements of Ind AS 37.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024****n) Retirement and other employee benefits:****Defined Contribution Plan**

Retirement benefit in the form of provident fund and ESIC are defined contribution schemes. The Company has no obligation, other than the contribution payable to the provident fund and ESIC. The Company recognizes contributions made under these schemes as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

**Defined Benefit Plan**

The Company operates a defined benefit gratuity plan in India. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability, are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in the Consolidated statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

**o) Cash and cash equivalents:**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the Consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

**p) Cash flow statement:**

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of noncash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated in the Cash flow statement.

**q) Earnings per share (EPS):**

Basic EPS amount is calculated by dividing the net profit for the year attributable to equity holders by the weighted average number of equities shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit of the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024**
**r) Impairment of non-financial assets:**

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an assets or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company of assets. When the carrying amount of an asset or Cash Generating Unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's Cash Generating Units to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the assets or Cash Generating Unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset exceeds neither its recoverable amount nor the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

**s) Financial Instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**Financial assets**
**Initial recognition and measurement**

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section (e) Revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

### Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

### Financial assets at amortised cost (debt instruments)

A 'financial asset' is measured at the amortized cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

### Financial assets at fair value through OCI (FVTOCI) (debt instruments)

A 'financial asset' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. For debt instruments, at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in the profit or loss and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI. Upon derecognition, the cumulative fair value changes recognized in OCI is reclassified from the equity to profit or loss.

The Company's debt instruments at fair value through OCI includes investments in quoted debt instruments included under other non-current financial assets.

### Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognized in the statement of profit and loss.

### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's Consolidated balance sheet) when: The rights to receive cash flows from the asset have expired, or The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

### Impairment of financial assets

The Company recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For debt instruments at fair value through OCI, the Company applies the low credit risk simplification. At every reporting date, the Company evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Company reassesses the internal credit rating of the debt instrument. In addition, the Company considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

The Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

### Financial liabilities

#### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

#### Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortized cost (loans and borrowings)

#### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit or loss.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

### Financial liabilities at amortised cost (Loans and borrowings)

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings. For more information refer Note 15(a).

### Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Consolidated balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

### t) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakh as per the requirement of Schedule III, unless otherwise stated.

## 2.3 Changes in accounting policies and disclosures

### New and amended standards

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

#### (i) Definition of Accounting Estimates - Amendments to Ind AS 8

The amendments clarify the distinction between changes in accounting estimates, changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendments had no impact on the Company's financial statements.

#### (ii) Disclosure of Accounting Policies - Amendments to Ind AS 1

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Company's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Company's financial statements.

#### (iii) Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases.

The Company previously recognised for deferred tax on leases on a net basis. As a result of these amendments, the Company has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. Since, these balances qualify for offset as per the requirements of paragraph 74 of Ind AS 12, there is no impact in the balance sheet. There was also no impact on the opening retained earnings as at 1 April 2022.

## 2.4 Amendments not yet effective:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

**Note:**

\*Previous year figures have been regrouped and rearranged where necessary to conform to current year's classification. During the year ended March 31, 2023, the Holding Company acquired balance 8.99% stake in its subsidiary company, One World Logistics Private Limited, and accordingly it has become wholly owned subsidiary company w.e.f. October 17, 2022. In the consolidated financial statements for the year ended March 31, 2023, the Group had erroneously accounted the difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid as goodwill instead of equity. Accordingly, prior year comparatives as at March 31, 2023 have been restated by reclassifying the amount of goodwill on Consolidation of Rs 260.57 lacs to equity (retained earnings). The management believes that the reclassification does not have any material impact on the information presented in the balance sheet.

\*\* During the year ended March 31, 2023, the Holding Company acquired balance 60% stake in R N Freight Forwarders Private Limited, the valuation of Non-Controlling Interest at the time of acquisition was quoted Incorrectly at 17.87 Lakhs. To rectify the same amount has been transferred from Retained Earnings to Non-Controlling Interest to the extent of 21.60 Lakhs.

**Nature and Purpose of Reserves**
**1 Securities premium**

Securities premium is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013

**2 Equity instruments through Other Comprehensive Income**

The Company has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the Equity instruments through Other Comprehensive Income within equity. The Company transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.

**Notes:**

The Company is contesting the demands and the management, including its tax/legal advisors, believe that its position will likely be upheld in the appellate process. No tax expense has been accrued in the financial statements for the tax demand raised. Cash outflows for the above are determinable only on receipt of judgements pending at various forums/authorities.

# The Company's income was assessed by the income tax department for the AY 2017-18 and a liability of Rs. 53.23 Lakhs was demanded. The Company has filed an appeal against the assessment order with the Income Tax Commissioner (Appeals) within the stipulated time. During the year the company was due to receive a refund from the Income Tax Department which was adjusted against the demand order. This adjustment forms part of balances receivable from the government. The Company has reviewed the demand and does not expect an unfavourable outcome.

\* The Company has received Show Cause Notices in respect of certain service tax matters amounting to Rs. 1,175.11 lakhs against which it has filed an appeal with the Customs, Excise & Service Tax Appellate Tribunal (CESTAT) after paying deposit of Rs. 47.57 Lakhs. The Company has evaluated the legal position and believes that it has a strong case in this matter and no provision is required.

**Note 36: Fair Value Measurements**

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company has established the following fair value hierarchy that categorises the values into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

Level 1: This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on Company specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

## Annual Report F.Y. 2023-2024

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024  
(Amounts in INR Lakhs, unless otherwise stated)**

The following methods and assumptions were used to estimate the fair values:

1. The Company has not disclosed the fair values of financial instruments such as cash and cash equivalents, bank balances, other than cash and cash equivalents, trade receivables, other financial assets (except derivatives), trade payables and other financial liabilities (except derivatives) because their carrying amounts are a reasonable approximation of fair value. Further, for financial assets, the Company has taken into consideration impairment allowances and adjusted the carrying values where applicable.
2. The fair values of the quoted investments/units of mutual fund schemes are based on market price/ net asset value at the reporting date.
3. The fair values for loans given are calculated based on discounted cash flows using current lending rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments are not materially different from their carrying values.
4. Fair values of the Company's interest-bearing borrowings are determined by using discounted cash flow method using the current borrowing rates. Fair value of such instruments are not materially different from their carrying values. The own non-performance risk as at March 31, 2023 was assessed to be insignificant.

The carrying value and fair value of financial instruments by categories including the quantitative disclosures of fair value measurement hierarchy as at March 31, 2024 is as follows:

Particulars	Carrying Value	Notes	Quoted Price in active market (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)

## Annual Report F.Y. 2023-2024

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024  
(Amounts in INR Lakhs, unless otherwise stated)**
**Note 37: Financial Risk Management Objectives & Policies:-**
**Market Risk**

Market Risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market price. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity risk. Financial instruments affected by market risk include loans and borrowings, deposits, FVTPL investments and derivative financial instruments. Market risk is attributable to all market risk sensitive financial instruments.

The finance department undertakes management of cash resources, hedging strategies for foreign currency exposures, borrowing mechanism and ensuring compliance with market risk limits.

**Interest Risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

The Company is not very significantly exposed to interest rate risk except the variations in RBI Repo rate or Bank's MCLR rates as most of the borrowings are linked to these. 1% changes in interest rate will increase the borrowing cost by Rs 29.27 lakhs.

The Company does not have significant investment in Bank Deposits and hence not significantly exposed to Interest rate sensitivity.

1% changes in interest rate will decrease the other income by ₹ 15.68 lakhs.

**Foreign currency Risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities and the Company's net investments in foreign subsidiaries.

The Company has no borrowings in foreign currency as on March 31, 2024 (March 31, 2023: ₹ Nil) and hence no foreign currency risk.

**Unhedged foreign currency exposure as at the reporting date expressed in INR are as follows :**

As at balance sheet date, the Company's net foreign currency exposure (receivable) that is not hedged is Rs. 1,816.46 lakhs (March 31, 2023: Rs. 1,155.95 lakhs).

**Foreign currency sensitivity**

For the year ended 31 March 2024 and 31 March 2023, every 5% depreciation / appreciation in the exchange rate between the Indian rupee and U.S. dollar, would have affected the Company's incremental operating margins by approximately amounts as shown below.

The Company's exposure to foreign currency changes for all other currencies is not material.

Particulars	March 31, 2024	March 31, 2023
	USD	USD
Trade Receivable	25.83	26.11
Trade Payables	4.04	12.14
<b>Total</b>	<b>21.79</b>	<b>13.97</b>

5% increase or decrease in foreign exchange rates will have the following impact on profit before tax:

Particulars	March 31, 2024	March 31, 2023
	USD	USD
Impact of change in USD	1.09	0.14

**Equity Price Risk**

The Company's listed and non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis.

In order to manage its price risk arising from investments in mutual funds, exchange traded funds and investments in equity instruments, the Company diversifies its portfolio.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024  
(Amounts in INR Lakhs, unless otherwise stated)**
**Note 37: Financial Risk Management Objectives & Policies:-**

1% increase or decrease in quoted market rates will have the following impact on profit before tax:

Particulars	March 31, 2024	March 31, 2023
Sovereign Gold Bond	0.10	0.09
Mutual funds	3.39	1.75
Equity shares	2.64	0.78

**Credit risk**

Credit risk is the risk that the counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivable) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Company only deals with parties which has good credit rating/worthiness given by external rating agencies or based on Company's internal assessment.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised as income in the statement of profit and loss.

**Cash and cash equivalents and deposits:**

Balances and deposits with banks are subject to low credit risks due to good credit ratings assigned to the banks.

**Loans:**

The Company has given loans to certain unrelated parties. The Company has made provisions in case where there is risk of loan recovery.

The Company has given loans to certain related parties. However, there is no counter party risk. (refer note 7)

**Trade and other receivables:**

The Company measures the impairment allowance of trade receivables and loans from individual customers based on historical trend, industry practices and business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends.

The ageing analysis of the receivables (gross of provisions) has been considered from the date the invoices falls due:

Period	Upto 60 days	61 to 120 days	More than 120 days	Total
As at March 31, 2024	6,825.37	1,066.48	913.25	<b>8,805.10</b>
As at March 31, 2023	4,895.97	736.08	1,327.07	<b>6,959.12</b>

The following table summarizes the movement in impairment allowance made for the receivables:

Particulars	March 31, 2024	March 31, 2023
Opening balance	11.66	11.66
Provision for Impairment Allowance	225.89	-
<b>Closing balance</b>	<b>237.55</b>	<b>11.66</b>

During the year the Company has written off an amount of ₹ NIL (March 31, 2023: ₹ NIL) as the same were not recoverable.

No significant changes in estimation techniques or assumptions were made during the reporting period.

**Liquidity risk**

Liquidity risk is the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's finance department is responsible for liquidity, funding as well as settlement management and then processes related to such risks are overseen by senior management through rolling forecasts on the basis of expected cash flows.

**Capital Management**

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company aims to manage its capital efficiently so as to safeguard its ability to continue as a going concern and to optimise returns to our shareholders. The capital structure of the Company is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. We consider the amount of capital in proportion to risk and manage the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Company will take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

**Note 38: Segment Reporting**

For management purpose, the group is organised into business units based on the nature of services rendered, the different risks and returns and the internal business reporting system. The following are the two reportable segments:

- Multimodal transport operations, which involves non-vessel owing common carrier operations related to less than container load consolidation and full container load forwarding activities in India and across the globe.
- Last mile delivery operations, which includes delivery of parcels as per the requirements of the principal

**c) Custom House Agent Operations (CHA)**

The Board of Directors of the Group monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance is evaluated based on profit and loss and is measured consistently with profit and loss in CFS. Segment revenue is measured in the same way as in the statement of profit or loss. Revenue and expenses which relate to the enterprise as a whole and are not allocable to a segment on reasonable basis have been disclosed as Unallocable. Transactions between segments are eliminated on consolidation.
